EL ARGENTINO OBTUVO LA MEJOR VICTORIA EN SU CARRERA COMO PROFESIONAL

# McEnroe se puso irónico con Navone tras el triunfo

Venció a Novak Djokovic, en el US Open después de cinco sets. El serbio volvió a mostrar problemas físicos que se hacen recurrentes

John McEnroe, extenista estadounidense, quien alcanzó el primer lugar del ranking ATP en 1980, fue uno de los pocos que no le dio mérito al argentino Mariano Navone tras su inolvidable triunfo ante el legendario Novak Djokovic, al comentar de forma socarrona que “va a jugar la segunda ronda en la cancha 21”.

McEnroe, ganador de siete títulos de Grand Slam durante su carrera como tenista profesional, luego agregó que le “desea lo mejor” al oriundo de la ciudad de Nueve de Julio, que debe “disfrutar el momento”.

Navone pudo derrotar a Djoko-

vic en la primera ronda del US Open para conseguir el mejor triunfo de su carrera y avanzar a la siguiente instancia, en la que estará enfrentando al italiano Matteo Berrettini, que eliminó el suizo Stan Wawrinka por 7-6 (4), 7-6 (3) y 6-0.

Como quedó dicho, Mariano Navone sumó el triunfo de mayor importancia en su carrera al imponerse en cinco sets ante el serbio Novak Djokovic durante la madrugada del lunes.

Su victoria se dio en el mítico estadio Arthur Ashe, que fue techado debido a las inclemencias climáticas, y se dio por 7-6 (5), 5-7, 4-6, 6-2 y 6-1 en favor del argentino, luego de más de cuatro horas y media de juego.

Un partido que el argentino jamás olvidará fue marcado por los errores del tenista serbio, que comienza a sufrir las consecuencias de su larga trayectoria: el jugador

con más Grand Slams de la historia del deporte tuvo problemas físicos durante todo el partido, padeció el clima y declaró que pasó un mal momento desde apenas el cuarto game, visiblemente afectado e incluso lagrimeando por momentos, ante los ojos de su familia.

Nada de esto es suficiente para sacarle valor a la victoria de Navone, que demostró entereza para mantenerse en partido y supo golpear en los momentos justos, aunque McEnroe decidió expresarse, en primera instancia, con sarcasmo.

Con un rol de comentarista para las transmisiones oficiales estadounidenses, el exjugador, que ya había descrito al argentino como un rival “que no supondría inconvenientes” para “Nole” en la previa del partido, aseguró que, en lugar del Arthur Ashe, Navone debe-

EL SALUDO RESPETUOSO DE NAVONE A DJOKOVIC DESPUÉS DE LA VICTORIA / AFP

rá disputar “la siguiente ronda en la cancha 21”.

Tras el comentario innecesario, mientras Navone celebraba una victoria memorable a pura sonrisa, McEnroe comentó que el jugador argentino de 25 años deberá intentar “mantener la misma intensidad” que demostró en su último partido, y que debe “disfrutar el momento”.

Por su parte, el platense Tomás Etcheverry, obtuvo una contundente victoria sobre el checo Vit Kopřiva por 6-3, 6-4 y 6-0 en poco

más de dos horas de partido que fue su presentación en la presente edición del US Open.

En cambio, Thiago Tirante perdió 6-4, 6-3, 3-6, 3-6 y 6-3 contra Adrian Mannarino en su debut en el US Open. El platense comenzó 2 sets a 0 arriba, el francés se activó en el tercero y, por problemas climáticos, el encuentro se tuvo que posponer para terminar de disputarse durante ayer. Finalmente, la ventaja que tenía el argentino se diluyó y quedó afuera del último Grand Slam del año.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |      |      |      |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |    |      |    |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |   |      |    |      |
