LAURA'S STORY

Laura came to the Pathway of Hope Program for a resume. But as conversations were held new opportunities for the program were found. Laura was working part-time at a very long-standing job when she first came into the program. She is a very loyal worker. But, she was needing and wanting more hours to support her family.

Through Pathway of Hope, Laura now has a full-time position with benefits, has found a primary care physician, and is doing very well.

DEAN'S STORY

Help finding affordable housing is what brought Dean to the Pathway of Hope Program. Over the past year he had tucked away a modest amount of his paychecks and earmarked the savings specifically for housing. Dean simply needed assistance in securing a place large enough for his family of four, at an affordable price.

In addition to housing, The Salvation Army Pathway of Hope team also assisted Dean in finding more affordable insurance.

TONYA'S STORY

Tonya's list included housing, full-time employment, and childcare. Through the Pathway of Hope Program she crossed off each of the items on her list.

Tonya now works for a bank. This new position includes insurance and vacation days. Securing the better housing was a little more challenging since her family includes six children and a husband. In the end, a nice, affordable place was secured and the family moved in within a few months after coming to Pathway of Hope.

“This program is really phenomenal. I am thankful for The Salvation Army. I have had some wonderful experiences of God bringing the right people to me. Pathway of Hope was one of those things. I have accomplished things thanks to Pathway of Hope.”
