

US Civics Training Initiative – Member Benefits

As of Fall 2017

Overview

Our mission is to train the next generation of American citizens in the core principles of freedom and liberty.

The US Civics Training initiative is unique in both the content development and delivery. We look at the founding documents themselves and use the founders own words to interpret their meaning. Additionally, we look for broad themes surrounding the ideas of freedom and liberty that sometimes span 100 and 200 year periods.

Our delivery system is through the internet via short format web videos as well as downloadable tools and resources. We also provide monthly Civics Training email campaigns that highlight civic holidays or significant dates in history. These emails allow members to share this information easily with family, friends, coworkers and others in their social networks.

Membership Benefits Overview

The US Civics Training Initiative has always provided some core teaching on the Declaration, Constitution and other civics videos for free to the world. However to help fund and further spread civics training to largest possible audience we invite you to become a member

For just \$20 joining fee, a member will receive all of these additional benefits beyond the free training that we provide.

- Over 100 additional webinars, pdfs, and other digital resources
- Key Historical Documents about Freedom and Liberty
- PDF versions of some of our key training
- Monthly Email Service that will contain key civics links related to holidays or historical dates of the particular month. These can be shared virally with others to expand your impact in helping others to be trained in the principles of freedom and liberty. For instance, MLK Day, Presidents Day, Patriots Day, Memorial Day, Flag Day, Independence Day, Constitution Day, Veterans Day, Mayflower Compact Day, Bill of Rights Day.

The Complete Video Library

Here is a listing of current titles. We are developing new resources throughout the year that you will benefit from as well.

You can use this video library to work through the content in sequence or jump around to topics that interest you. You may also create a custom curriculum for small group study. Although, you cannot share your username and password set with others, if you are an instructor or class leader you can show videos as a part of an instructional process.

Please invite your students to become members of this site so that they can go more in depth themselves as well.

Overview

- The 8 Components of Civic Excellence-3m
- Civics vs. Politics - Understanding the Difference-4m

Civic Knowledge - Current Reality in the U.S

- Civic Ignorance - How Bad is it?-10m
