

Adopt A Family

Salvation Army Children's Services

The Salvation Army Children's Services is looking for individuals, families and corporate partners to **Adopt a Family** from our Visit Coaching Program. Visit Coaching is an innovative, effective approach to reunification in which birth parents are provided with pre-visit, in-visit and post-visit coaching support to ensure successful visits with their children in foster care.

The **Adopt a Family** program will seek to match families participating in the Visit Coaching Program with a volunteer to provide items for the child, foster, and birth families throughout the year. Because of your support and generosity, birth families will feel pride in being able to supply their child with special occasion gifts and healthy snacks to share together. The child will be equipped with items to help make back to school transitions easier and feel more normal.

Possible items needed include:

- Back to school backpack and supplies for the child.
- A Birthday gift for the child to be given by the birth parent.
- Healthy snacks for birth parent and the child to enjoy during a visit.
- Christmas gifts for the child from the birth parent.
