UPDATE ON SUSPENSION OF PLAY AND EVENT CHANGES

Due to the continued situation surrounding the COVID-19 virus, and after discussions with the USTA Medical Advisory Committee, effective immediately the USTA will extend the suspension of USTA sanctioned products and events through May 31. This includes:

- Adult and Junior Tournaments
- USTA League
- USTA Junior Team Tennis
- USTA Social Leagues
- Team Challenge
- Team Tournaments
- USTA Schools programs
- Tennis on Campus
- Wheelchair events

Additionally, recognizing the evolving and fast-changing nature of this situation, the USTA will continue to monitor and assess conditions to make future determinations about events and activities taking place after May 31.

All Category 1 and Super Category 2 National Adult Tournaments with an ITF status, all ITF Junior events, all Junior, Adult and Wheelchair L1 - L3 events, and all USTA Pro Circuit and professional events will align with the same calendar as the ITF, ATP and WTA, and be suspended through July 12. The National Clay Court Championships, slated to begin on July 11, will proceed as scheduled, at this time.

"The impact of COVID-19 has been felt across the tennis landscape, and it is our goal to ensure that the sport is able to be played in a safe and healthy fashion at the parks and facilities throughout the country once the pandemic subsides," said Patrick Galbraith, Chairman of the Board and President, USTA. "One of the greatest aspects of this game is that it fosters a true community, and we look forward to the time when we can return to our local courts and use tennis to unite us all, once again."

The determination has also been made to suspend the calculation and publication of the National Standings List (NSL) for Adult, Junior and Wheelchair play until further notice. The NSL published on March 18 will serve as the most current until tournament competition resumes.

In addition, to ensure that play taking place at local facilities will be the focus once the pandemic subsides, the following events will be canceled for 2020:

- USTA League National Championships
- USTA Junior Team Tennis National Championships
- USTA Intersectional Team Championships

The USTA Billie Jean King National Tennis Center in Flushing Meadows, N.Y., is currently closed to the public. The facility's Indoor Tennis Center has been converted to a temporary hospital for COVID-19 patients, while Louis Armstrong Stadium is being utilized as a commissary to facilitate the creation of meal packages that are being distributed to patients, workers and New York City school children.

The USTA National Campus, in the Lake Nona area of Orlando, Fla., will remain closed for play and instructional opportunities through May 31.

Any patron who wishes to cancel participation in a scheduled activity should contact the specific location for refund information. These policies will be in effect pending additional guidance or directives from each local governmental agency and the CDC. The USTA will continue to monitor and assess conditions to make future determinations about all activities at these facilities.
