

State Professional Counseling Licensure Disclosure

We provide this information comparing the counseling program's curricular requirements to professional counseling licensure requirements in each state as a reference for prospective and current Wake Forest University counseling students and graduates. We review state licensure requirements periodically and, as we become aware of changes, we update this information accordingly. However, because state licensure requirements can change at any time, we encourage individuals to review their state's licensure requirements regularly. We have organized this information using the following categories: Meets state licensure requirements (both CMHC and SC tracks); Meets state licensure requirements (CMHC track only); Meets state licensure requirements with minor accommodations; Unsure if it meets state licensure requirements; Does not meet state licensure requirements. Please note that this form only references professional counseling credential; it does not provide information about school counseling licensure. We have a separate disclosure form for that information.

Meets State Licensure Requirements (CMHC and SC Tracks)

Alabama
Alaska
Arizona
Colorado
Connecticut
Delaware
Hawaii
Idaho
Iowa
Kansas
Maine
Michigan
Montana

Meets State Licensure Requirements with Minor Accommodations

Massachusetts

- CMHC track only (psychopathology requirement; knowledge and skills in mental health counseling)
- Individual supervision during practicum only (does not count triadic supervision)
- Group supervision with no more than 10 internship supervisees in a group.

Unclear if Program Requirements Meet State Licensure Requirements

Maryland (CMHC track only; the combination of Diagnosis and Psychopathology and Psychotherapy and Treatment of Mental and Emotional Disorders requirements).

- CNS 770 fulfills one of the requirements.
- CNS 762 and CNS 771 may fulfill the psychotherapy and treatment of mental and emotional disorders requirement, but that has not been confirmed
- Please visit [Maryland's Board of Professional Counselors and Therapists](#)'s website for additional information.

New Mexico (CMHC track only; question about specialized clinical studies requiring 12 credit hours in an understanding of diagnosis and treatment of mental disorders)

- CNS 762, CNS 765, CNS 770, and CNS 771 may fulfill this requirement but that has not been confirmed
- Please visit the [New Mexico Regulations and Licensing Department](#)'s website for more information.

Tennessee (LPC-MH – question about 9-hour DSM coursework)

- CNS 762, CNS 770, and CNS 771 may fulfill the psychotherapy and treatment of mental and emotional disorders 9-hour requirement, but that has not been confirmed)
- Please visit the [Tennessee Board for Licensed Professional Counselors](#)' website for additional information.

Wisconsin (CMHC track only; question about diagnosis and treatment planning requirement and psychopathology requirement)

- CNS 762 and CNS 771 may fulfill diagnosis and treatment planning requirement while CNS 770 fulfills the psychopathology requirement, but that has not been confirmed
- Please visit [Wisconsin's Department of Safety and Professional Services](#)' website for additional information.

Does Not Meet All State Licensure Requirements

Arkansas (psychopharmacology requirement)

- We provide an elective summer course in psychopharmacology but it is not required for graduation.

California (psychopharmacology and crisis and trauma counseling)

- We provide elective summer courses in psychopharmacology and crisis prevention and response, but these courses are not required for graduation.

Florida (human sexuality)

- We provide an elective summer course in human sexuality, but this course is not required for graduation.

Washington (4 hours of HIV/AIDS training)
