

Tired of fighting traffic? Fed up with trying to get to the grocery store or the gym? Then it's time for a life change. Islands Veterinary Clinic in beautiful Friday Harbor is seeking an associate veterinarian for our small animal exclusive AAHA accredited hospital. The new team player will provide a high standard of care while developing strong personal relationships with patients and clients. Our ideal candidate will possess a positive work ethic, an outgoing, energetic and friendly manner, and be able to work independently. Partnership and or Ownership potential.

The San Juan Islands are a nationally acclaimed and highly desirable travel destination just 90 miles north of Seattle. Our unique island community offers an abundance of outdoor activities including hiking, kayaking, boating and wildlife watching. The town of Friday Harbor boasts many locally owned shops, art galleries, restaurants and theaters, all with a friendly community atmosphere with no traffic or congestion headaches.

Islands Veterinary Clinic is a privately owned AAHA Accredited Veterinary Hospital on San Juan Island, Washington. San Juan Island is located approximately ninety miles north of Seattle. Our clinic is a full service small animal exclusive hospital offering exceptional veterinary care, soft tissue surgery, emergency care, internal medicine, dentistry, dental x-ray, digital x-ray, and ultrasound. Our practice boasts a well-managed, licensed support staff, a healthy, positive work environment, and an impeccable reputation in the community. Islands Veterinary Clinic is owned by Dr. Sonja C. Webster-Hills, DVM. Dr. Sonja is a 1992 graduate of the School of Veterinary Medicine, University of California, Davis. She performed her undergraduate work in Animal Science at California State Polytechnic University, Pomona. Following graduation, Dr. Sonja focused on small animal medicine, surgery and emergency care. Her experience includes working in multi-doctor full service and 24 hour animal hospitals in Elk Grove, CA and Issaquah, WA. Additionally she practiced as a relief veterinarian in many clinics in the Seattle area of Washington. Dr. Webster's special interests include comprehensive preventative care for all life stages, management of complicated geriatric conditions, abdominal ultrasound, and dentistry.
