United Way fights for the health, education, and financial stability of every person in every community. We have one life. To live better, we must LIVE UNITED. Join us. Find out how to get involved at unitedway.org.

United Way uses its global reach and local presence to build stronger communities, aiming to improve the health, education, and financial stability of every person in every community.

United Way steps up, wherever needed. We’re responding to immediate needs. We’re helping people recover – and rebuild. We’re a vital force in building strong, equitable communities where everyone can thrive.

We take community-building seriously, but we do it with a global reach and hyper-local focus. We help people invest in local solutions, bringing people together – though charitable giving, volunteerism or public policy advocacy – to make life better for their neighbors.

Our experience and expertise tell us that single-issue or one-size-fits-all solutions won’t create the lasting change needed. Instead, we join hands with millions to tackle the toughest problems in our society.

United Way made life better for 48 million people across the world last year. But we didn’t do it alone: we partnered with 45,000 companies, including more than half the Fortune 500.

All told, we helped almost 8 million people invest in their own communities, 2.5 million volunteer in meaningful ways, and thousands and thousands make themselves heard to policymakers.

Together, we can make a difference. Together, we can Live United.
