About NWRD

Northwest Renal Dietitians (NWRD) is a non-profit organization comprised mostly of renal dietitians practicing in the Pacific Northwest (PNW) and beyond. Given the proximity to our northern border, NWRD also collaborates with renal dietitians in Canada's West Coast.

**Registration OPENS
January 15**

Live Virtual Format &
On-demand recordings for
30 days post-conference

Our sole purpose is to provide **networking** and **continuing education** for renal dietitians via an interactive annual conference.

Each year, NWRD hosts this **two-day event** (virtual and/or in-person) focusing specifically on topics of interest to nephrology professionals who provide nutrition care to people with chronic kidney disease (CKD).

Last year, in response to the COVID-19 global pandemic, NWRD pivoted the conference platform from in-person to virtual. The virtual event proved to be a **great success**, reaching even **more** attendees, from **wider** regions of the country.

**2022 NWRD will again
be held as a virtual event**

What attendees say:

"This was an excellent conference. I've attended several national virtual conferences during the pandemic and NWRD is the best out of all of them."

Audience

NWRD's membership includes approximately **400 Registered Dietitians** and other professionals who work in the field of kidney disease.

Members work in dialysis clinics, hospitals, nephrology practices, transplant centers, private practice, public health organizations and more.
