The Ultimate Tech Tips on IIUSA Member Portal

1. Customize your profile at Dashboard

At **Dashboard**, you can update the profile information for you and your company (email, phone, website, etc.), manage your profile picture, and more.

2. Use the search function and the sidebar filters to find your EB-5 partners
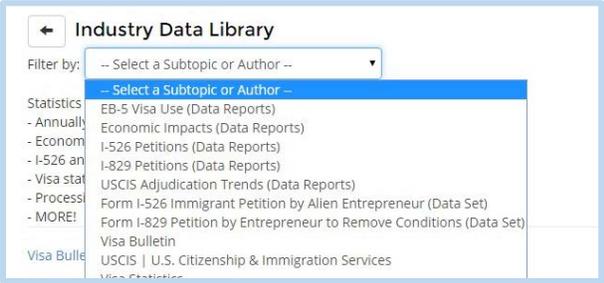

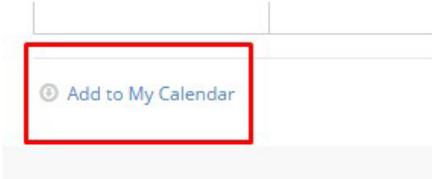

At **Directory**, you can use the filters at the sidebar to inquiry:

- **Associate Members** database by industry;
- **Regional Center (RC) Members** database by state(s) served, approved geography (county, city, etc.), approved industry, and more. You can also get a list of RCs that have received I-526/829 approvals by simply using the "Approvals" filter.

Alternatively, you can also search EB-5 peers by key words using the search feature at the top of the page.

3. Sync EB-5 industry schedule to your own calendar

At the bottom left of the **Calendar** page, you can subscribe to the EB-5 industry event schedule and add to your own calendar by simply clicking the button to download the iCal feed. All updates will be automatically synced with your calendar services.

4. Use the filters to navigate EB-5 resources

The "Filter by" function within each topic at the **Resources Center** is a powerful tool for you to navigate thousands of EB-5 related data, analyses, documents, and more.

You can click into the topic of your interest (i.e. *Industry Data Library*), then use the dropdown menu at the top to filter the resources you are looking for (i.e. *I-526 data, EB-5 visa usage statistics, etc.*).

5. Search function at the Resources Center is powerful

If you are not sure which topic to look into, you can use the search bar at the upper left of the **Resources Center** to search the resources by key words, then use the "Filter by" function to refine your results.

Tips: keep the key word as simple as possible to help you get a better result. Don't use special characters like ", (- & / in your search.
