ENTERPRISE DASHBOARD

Needs Attention

Dealership	Not Frontline Rdy	No \$ Change 7 Days	Slow Moving	Mkt Too Small
Smithe Ford	58	54	42	12
Smithe Subaru	56	115	14	3
Smithe Toyota	16	22	8	
Smithe Nissan	33	39	19	

Inventory

Dealership	Vehicles	Turn	Average Age	Aged 91+	Cost to Market	Price to Market	Total Investment	Average Investment
Smithe Ford North	135	9.3	39	15	83%	104%	\$3,295,411	\$24,410
Smithe Subaru	199	11.97	30	4	79%	94%	\$2,993,006	\$15,340
Smithe Toyota North	71	1.83	200	38	83%	94%	\$1,325,503	\$18,600
Smithe Ford West	98	3.42	107	35	80%	93%	\$1,128,242	\$13,200
Smithe Honda	95	16.33	22	2	75%	100%	\$1,275,067	\$13,200

Competition drives performance.
It also drives your stores apart.

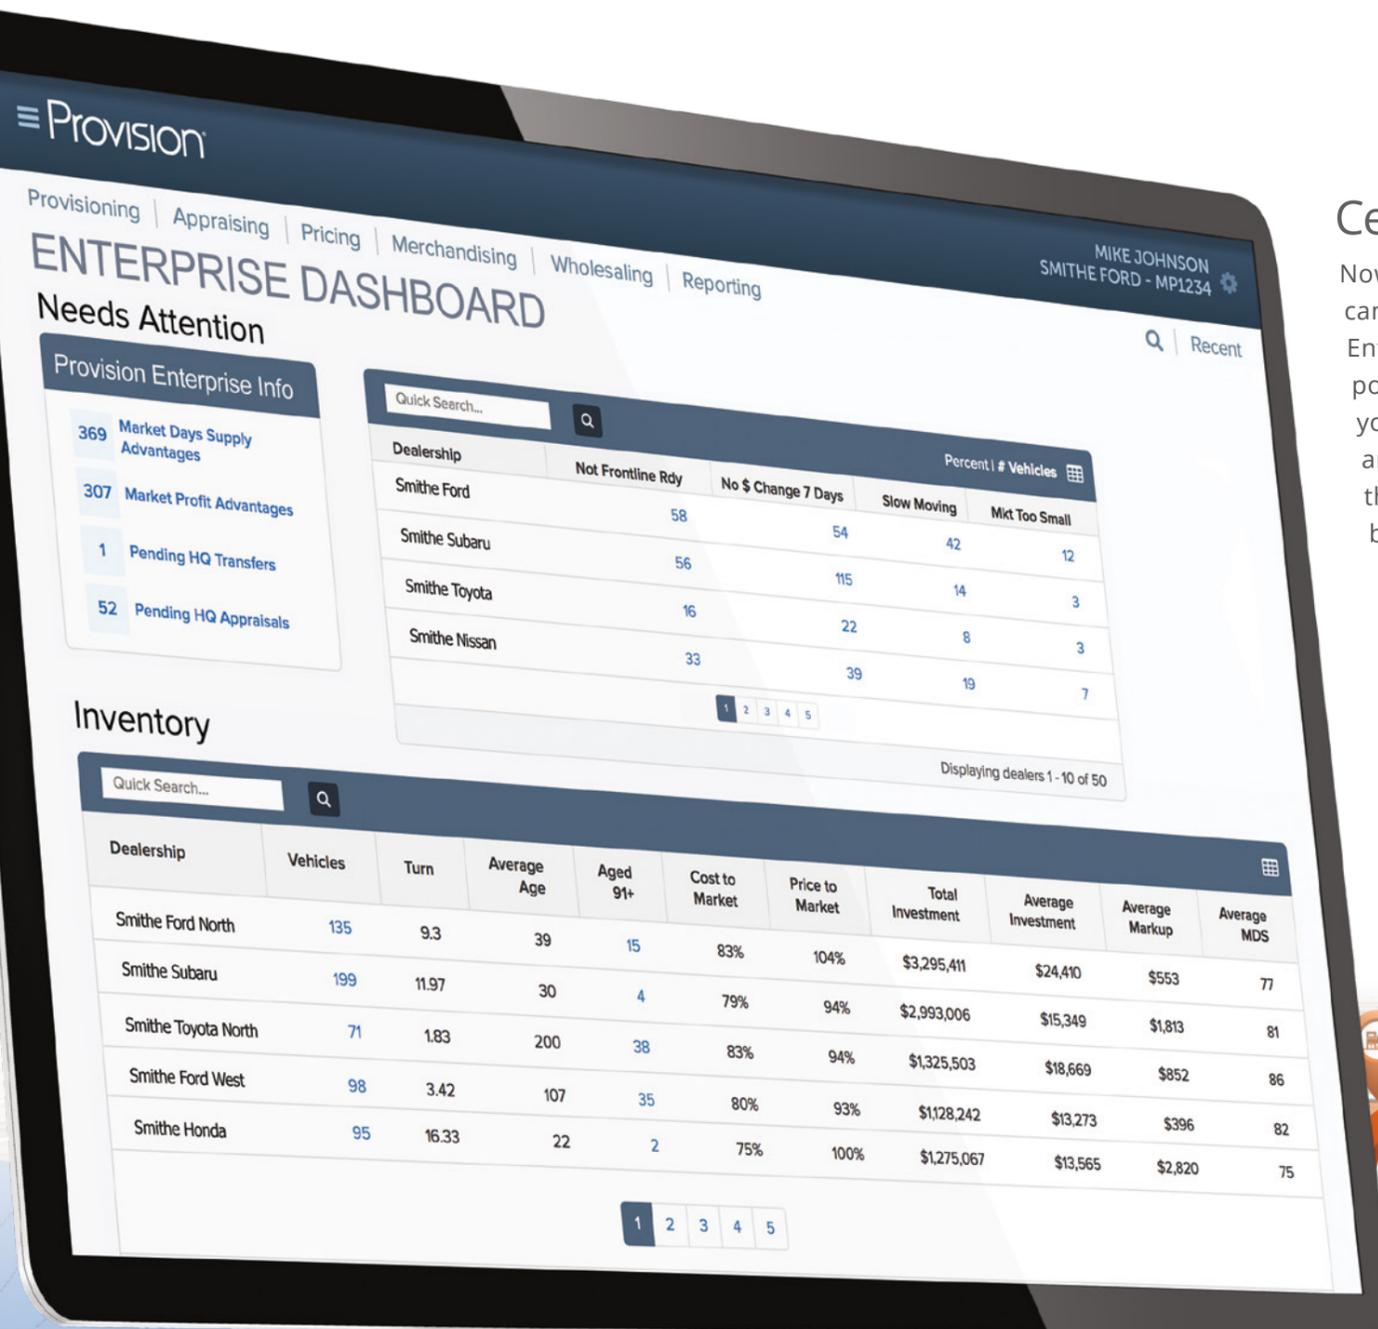

But an enterprise competes **together**.
Thinks **together**. Works **together**.
It doesn't let internal rivalries drive stores apart.

IN AN ENTERPRISE,
ALL STORES
GROW **TOGETHER**.

PROVISION ENTERPRISE

UPGRADES KEY PROVISION®
CAPABILITIES FROM THE STORE LEVEL TO THE
DEALERSHIP GROUP LEVEL.

Centralize Appraising

Now when anyone in your group appraises a car, they can assess its potential beyond their own store. Provision Enterprise provides Market Days Supply and profit potential for every car you consider, in every live market you manage. If a vehicle being appraised at one store fits another store's Provisioning strategy, you can easily accept the inventory and assign it elsewhere. Every store gets a better mix, and every appraisal gets more opportunity.

Track Active Appraisals

Provision Enterprise makes it easy for dealer principals to track the progress of appraisals across the group. See HQ pending, HQ reviewed, which vehicles were accepted or rejected, and more. The transparent progress reports allow group leaders to recommend the best store to accept an appraised vehicle, and they make the appraisal process more efficient.

Monitor KPIs

With the Enterprise upgrade, reporting gets more robust, drilling down to store-by-store details. In a single view, see critical KPIs like turn, inventory age and more on an intuitive dashboard. Know where you're over- and underperforming so you can make adjustments and better position each store for success.

Reallocate Inventory

With a holistic view of inventory across your enterprise, you can identify opportunities to move vehicles from one market to another. If a vehicle underperforming at one store shows stronger Market Days Supply and profit potential at another, you can easily reallocate it. Provision Enterprise even factors in transportation costs to tell you when inventory transfers will translate to a profit advantage for the group.

IT'S TIME TO **GROW TOGETHER.**

Upgrade to Provision Enterprise today.
