

vAuto's wholesale acquisition tool gives you insight into which vehicles will gross, where to find them and what to pay. We draw from a broad range of sources to provide the most accurate, up-to-the-minute Live Market View of today's used car values and pricing, giving you the most complete wholesale data.

STRATEGY

Stockwave provides stocking level recommendations broken into vehicle segment and price buckets based on your dealership's sales velocity and target days supply. Search results are personalized based on your buying preferences.

PLANNING

Once you build a business plan with Stockwave, letting the software know your expected fees and additional costs, the tool will automatically calculate profit potential and a maximum bid based on your pricing and exit strategies.
