

VEGAS STRONG LEGAL & FINANCIAL TOOLKIT

Legal Aid Center of Southern Nevada wishes to express its sincere condolences to all of those affected by the tragic events occurring on October 1st. Many will face a multitude of civil legal issues in the coming days, weeks and months. Issues can range from the need to obtain guardianship over an orphaned child or help with probate or insurance problems. Others may need help when debts pile up because a household provider has been unable to return to work due to traumatic injury. It is also expected that out-of-state visitors may need help finding an attorney in their own jurisdiction. We do not want individuals to face these issues alone and without legal guidance. Our nonprofit organization, in existence since 1958, together with our partner, the State Bar of Nevada, are joining forces to provide free legal help to those in need. This checklist provides some needed legal information and resources to those affected by this event.

Therapy and Physical Injuries

- For those injured (including emotional distress) – get treatment right away.
- Your health insurance provider can let you know what providers are covered under your plan.
- If you do not have a doctor or know who is covered, contact First Med at (702) 731-0909. They will help you locate help.

Funeral and probate/estate issues

- For victims in other states, the State Bar of Nevada and Attorney General’s office will assist us in finding attorneys and victims’ advocates in other jurisdictions. Services can include a free consultation or an attorney undertaking the entire representation for free. Contact Legal Aid Center (702) 386-1598 or send an email to LegalAidServices@lacsnc.org and we will connect you with the State Bar of Nevada who can get you the proper referral.
- Life insurance policies are often overlooked or forgotten in the shock of losing a loved one. Remember to look for life insurance policies; if your loved one was working, you can inquire with their employer about the policy.

Hospital and Medical Bills

- Make sure every bill is submitted to your health insurance company. Keep a copy for your records.
- Ask if the insurance company or hospital or doctor will waive your co-pay and deductible. While they are not under an obligation to do so, they may do it upon request.
