

Audit-Ready Verification

- Requirements-Driven Verification
- Advanced Verification Techniques
- Auditable Simulation Results
- Engineering Support During Audit

Cloud-Based Regression

- On Demand Simulation Resources
- Contract Testbench Creation
- Regression Flow Automation
- Verification as a Service (VaaS)

Testbench Acceleration

Testbench Acceleration

- Accelerated Testbench-Development
- Up to 100x Faster Simulation
- Proven Acceleration IP

Audit-ready Verification

Independent Verification

- Expert Verification Team
- Verifiable Independence
- Software and Hardware Infrastructure

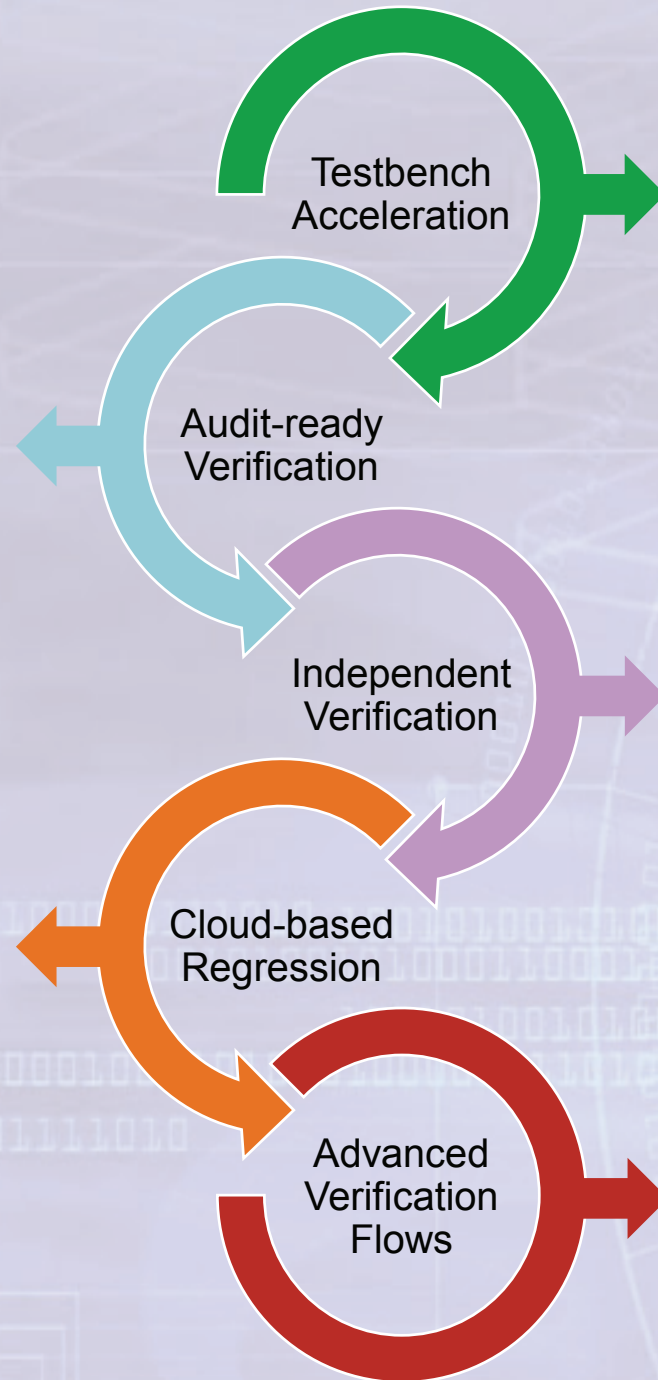

Independent Verification

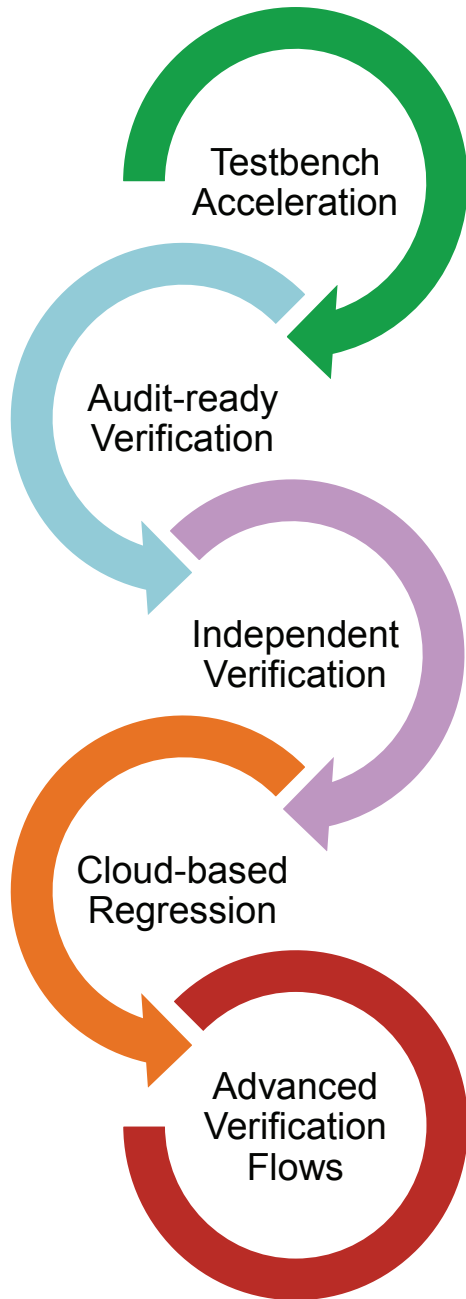

Cloud-based Regression

Advanced Verification Flows

- Customize and Deploy UVM
- Deploy Formal Techniques
- Virtual Platforms, HW/SW Integration
- FPGA Prototyping

Advanced Verification Flows
