## TELESCOPIC SUPPORT BAR

FOR RETRACTABLE ARMS

RETRACTABLE ARMS

TELESCOPIC SUPPORT BAR

# TELESCOPIC SUPPORT BAR

TECHNICAL SHEET | FICHA TÉCNICA

## FEATURES

This support allows to fix your awning to the floor while it is opened, avoiding vibrations and damages due to wind gusts.

Increase your retractable awning's wind resistance with this practical and elegant solution.

Its articulated design allows to fix it on the load profile when your awning is folded up, without the need of dismantling the support.

Designed to be used as an accessory with the Magnum, Monobloc, Duplex and Classic Systems.

*Item Number: 0-140-07-31931*

## APPLICATIONS

Retractable  
Awnings

Outdoor Use
