

VTi® ESCALATE CELTIC REMOTE CONTROL | SIXTEEN CHANNELS

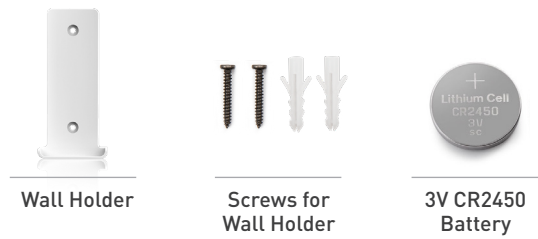

6-800-AT-ESB16

FEATURES

- Compatible with Vti Celtic Re-lion RF Motors.
- Also available in 2 and 6 channel version.
- Each channel can control a single motorized shade or a group of motorized shades.
- An extra auto-programmed channel is included, which can control all the motors linked to the remote.
- Modern and functional design. Rubber push buttons, premium white finish, and LED indicator lights.
- Slim wall holder features a magnetic dock for a wall-mounted placement.
- A Favorite position button is included for swift access to the preferred shade position.
- The "hide unused channel function" is available for a customized user experience.
- The optimal control experience in dimly-lit environments is ensured by the LCD display equipped with a backlight.
- The "lock function" feature block all the remote's settings, thereby avoiding any unintended alteration to the motors or remote configuration.
- In addition to the 6 individual channels, it is also possible to program up to 6 channel groups, which enable multiple channels to operate simultaneously.
