

HyDraw® CAD 2026 Service Pack 01 IT

Applicability: HyDraw CAD 2026.0.0.21 IT R installed and above.

Issues Resolved:

- 1. Duplicate Net Names generated**
Duplicate net names are generated when a network connection line is broken by inserting a new symbol.
- 2. Master Symbol Image Quality**
Editing and saving a master symbol reduces the original image resolution or size.
- 3. Align Symbol Ports Crash**
HyDraw CAD crashes when using the Align Symbol Ports function.
- 4. Component Sorting Order**
Components are not displayed in numerical order in System Tab of HyDraw property manager.
- 5. MDTools Export Hidden Ports**
Hidden port names are not exported to MDTools as expected.
- 6. MDTools Export Validation**
The system allows export even when a symbol does not contain a port name.
- 7. SQL Password Length Issue**
SQL database login fails in HyDraw CAD 2026 when the password exceeds 15 characters.
- 8. Incorrect ZIP file naming**
HyDraw CAD 2026 Import/Export settings ZIP file uses the 2025 naming convention.
- 9. Property Manager Hover Exception**
An unhandled exception occurs when hovering while Property Manager is set to auto-hide.
- 10. Item ID Not Cleared when Assembly ID also exists**
Removing Item ID from HyDraw Property Manager does not clear the Item ID on the drawing when an Assembly ID also exists.

11. Item ID Exception with Drawing

Inconsistent Item ID behavior and an unhandled exception occurred with a specific drawing.

12. Hidden Property Values

When using an English Library with HyDraw CAD Italian, Property values become hidden when a prefix is added to the hose connector display format.

13. Assembly ID Disappears

Assembly ID disappears from the envelope when its Item ID is changed.

14. Balloon Color Change Issue

Changing color from BY LAYER to another color also changes the balloon color.

15. Overlapping Item IDs

Copying a component with multiple accessories results in overlapping Item IDs.

16. Balloon Detaches After Replace

Item ID and its balloon become detached after replacing a symbol.

17. Multiple Window Launch Issue

HyDraw CAD opens multiple windows when HLE and HPM are docked with auto-hide enabled and the command line is docked.

18. Small Balloons After Copy

Balloons of copied symbols appear smaller than expected.

19. Multiple Windows on Startup

Multiple windows open when launching HyDraw CAD due to HLE and HPM auto-hide settings.

20. MTEXT Disappearing After TRIM

MTEXT Disappearing from Drawing After Using TRIM Command.

Date: April 20, 2026

HyDraw® CAD 2026 Hotfix 02 -IT

Applicability: HyDraw CAD 2026.0.0.15– EN and above.

Issues Resolved:

1. Editing and Saving a Master Symbol Reduces Its Original Image Resolution or Size.
2. Item ID and its balloon become detached after replacing the symbol.

Date: March 27, 2026

HyDraw® CAD 2026 Hotfix 01 -EN

Applicability: HyDraw CAD 2026.0.0.15– EN.

Issues Resolved:

1. Due to recent Microsoft Office updates, users experience errors and unhandled exceptions when accessing data from the MS Access Library, preventing normal application usage.
