Winemaker Ernst Loosen

VILLA WOLF 2018 Sauvignon Blanc

THE VILLA WOLF WINERY

Founded in 1756, the J.L. Wolf estate (now called Villa Wolf) was a successful and highly regarded winery for more than two centuries. Ernst Loosen, owner of the Dr. Loosen estate, took over the winery in 1996, launching a dramatic revival of the estate's quality and reputation. The Villa Wolf varietal line-up features exceptionally affordable, classic Pfalz wines made from traditional grape varieties.

THE PFALZ REGION

The Pfalz (aka 'Palatinate') region is in the Rhine river valley in southwest Germany, directly north of France's Alsace region. The low-lying Haardt mountains protect the area from cold, wet Atlantic weather, making it one of the warmer and drier areas of Germany. The predominant soil type in this area is well-drained, weathered sandstone. It produces wines with a fruit-driven purity and a stony structure.

VILLA WOLF SAUVIGNON BLANC

As with all of the Villa Wolf varietal wines, the Sauvignon Blanc is produced from fruit that has reached optimum ripeness, but is not over ripe. And only clean, healthy fruit (no botrytis) is allowed. The sandy loam soils of the Pfalz region produces fruit with excellent purity and varietal expression, resulting in wines that are fresh and juicy, with aromatic character and a crisp backbone of acidity.

THE 2018 VINTAGE

The growing season in the Pfalz started early and the summer was very hot and dry, which led to an early harvest. The yields were excellent compared to the small 2017 vintage, and we were very happy to have such healthy grapes and high quality. The 2018 harvest period was unproblematic and quite smooth. Because of the dry weather conditions and the healthy state of the grapes there was no need to rush, giving us time for careful selection and very gentle handling in the cellar.

TECHNICAL INFO

Variety: Sauvignon Blanc

Appellation: Pfalz, Germany

Viticulture: Sustainable, according to strict German environmental regulations.

Harvest Selection: No overripe or botrytis-affected fruit is allowed.

Vinification: Fermentation and maturation in stainless steel tanks.

Malolactic fermentation is avoided in order to maintain lively acidity.

Light filtration before bottling. No other filtering or fining.

Alcohol: 12.0%

UPC: 810404020432
