

V3CORE

OUR VALUE PROPOSITION

V3CORE Sales is designed to give you the competitive advantage of once again being able to put your sales teams in front of your customers in a completely unique way during a time when others cannot.

ADDITIONAL VALUE:

- *Highly immersive and hyper-realistic demos of your product(s)*
- *Lowers the cost of entry into VR integration*
- *Self-contained hardware kit, specifically designed for ease of use*
- *Flexible, scalable options to add more products in phases*
- *Enhances the perception of being a leader in your industry*
- *Reinvigorates relationships by humanizing the interaction*

THE *NEW* FACE TO FACE OF SALES

The time has come to take back what you do best - selling to your customer in person. But in these impossible times, in-person meetings are extremely challenging or simply forbidden entirely. But there is a new reality, and it's virtual.

With V3CORE Sales you can unlock in-person meetings and safely get in front of your customer again.

VisionThree has invested years refining a solution flexible enough to address communication goals in areas from training to marketing in various types of industry. Now, that proven toolset is targeted to create a dedicated VR-based sales tool.

The V3CORE powered solution allows you to meet your customers in a virtual environment, seeing and hearing each other in real-time, interacting with your products safely, without the need to physically be in the same location. Once inside, sales reps can present product stories in ways that would otherwise be impossible through truly engaging the limitless power of VR.

BASELINE PACKAGE SOFTWARE FEATURES

- Secured network connection between customers and sales teams
- Selection of (1) pre-constructed environment
- (1) Product CAD import/conversion
- Up to (12) interactive hot spots placed on product model that access additional information in the form of text and images
- Ability for teleportation around environment/product

VR HARDWARE KIT INCLUDES

- (2) Oculus Quest VR hardware sets with Oculus Touch handheld controllers
- Branded Hardware case for each hardware set (2) complete with device/location labels and instructions for use
- Cellular hotspot with charger
- Technology-safe sanitizing wipes

** Hardware and software are fully supported over the duration of the agreement*

Optional enhancements to the baseline software experience are available such as: environmental enrichment, 3D product model advanced visualization techniques, and annotation tools.

Subscription-based model coupled with flexible financing options offers a lower-risk expense approach rather than all-at-once capital investment.

We look forward to continuing this discussion and assisting you in regaining your sales in the “new normal” with the power of V3CORE Sales.
