

El Toro High School believes that Athletics is a vehicle to raise student achievement. The El Toro Athletic Department has a rich history of tradition and success. Participating in athletics provides student-athletes with meaningful opportunities to grow both as an individual and team member. We encourage students to play multiple sports to enhance their high school experience. El Toro High School student-athletes are taught the values of hard work, responsibility and discipline. Athletics also instills a sense of pride and allows students to take ownership of their educational experience. As Director of Athletics at El Toro, I encourage all our students to participate in a sport and become part of this storied athletic community.

Go Chargers!

Yours Truly,

Armando Rivas Director of Athletics

Edward Begany Assistant Principal of Athletics/Facilities
