

**VTSLH65RBL / VTSLH92RBL**

DATE:

Available in two sizes, each with three different beam angles, achieved through refractive or hybrid optical units. The junction arm is integrated into the spotlight's body, ensuring the barrel stays aligned with the track and preventing any imbalance in suspended track versions. The junction also allows for 360° rotation, providing maximum flexibility. Additionally, the fixture includes an external dimming interface compatible with Triac, 0/1-10V, and Dali systems for versatile lighting control.
