Terms of Use: privacy: world's privacy policy; support: support@outfit7.com holidays are here! There's snow sprinkled and Tom is ready for the holidays. Sometimes when I try to watch an ad to do something that my game will fail, but will not return to the normal iPad home screen... so the manufacturer of this game, please read this (good series 7), but anyway please fix this problem! Tom is cute, there are a lot of clothes and clothes that I love. What you say in Tom's cut voice says that I also like the blender to make a drink for Tom and rate your style at Tom and someone else Tom has a fashion show basically whoever gets the most votes on their clothes wins! You can do it, but you can also do other things and I forget those other things, but if you decide to get this game, your decision is perfect because this game is fun, funny and most of the best games I've ever had! Also, the creator of this game, I have a suggestion maybe we can have several toms I know is very active but more fun! Thanks for reading my review and remember that you're perfect! played this game for about a month and then deleted it. Later, I downloaded it again for less than a week and then removed it. The concept of this game is so cool that you will take care of your own pet. Cats (it looks and acts like a child, except for different colored feathers, tails and ears). I'm slightly older than the audience I want, and I've noticed that some ads may be inappropriate or disturbing to young children. It is also tedious after a while. In My Angela, another game by Outfit7, the gameplay is more interesting and addictive. Another problem with this app is that you watch Tom go to the bathroom. You don't see anything, but it's not appropriate. One problem that many comments mention, but I disagree, is the guy in Tom's eyes. First of all, in my entire game, I've never seen him. Secondly, from what I hear, it is only a few pixels in Tom's eyes that happen to resemble a person. Thirdly, if someone in Tom's eyes, it could be just a detail. Looks like he saw you. Finally, parents, you know Tom repeats what your child says. This is my opinion on this issue and I will only recommend this app to children over 6 years old by parents who understand that the app has a little suspicious content. Thank you for reading the book. I know this game is aimed at kids 4-8 y/o I 14 y/o and play this game mainly for nostalgia. I've been playing Outfit7 since the time Talking Tom came out (I'm about 4) and I've been playing my Talking Tom since my debut when I was 11 or 12 years old. But that depends on personal preferences. I found that this game is more young than the first my talking tom game (not that the first game is not a kid) the picture is much softer and everything is 10 times easier, however I can't really complain about it because it's targeting small kids like I mentioned earlier. I can't see myself enjoying this game in the long run, just like I did with my first Talking Tom game (partly due to my age when MTT came out compared to my age now, and partly due to personal preference), but I'm 10/10 recommended if you're under 8 years old or if you're a parent or smth, and you want your child to dominate, while the Outfit7 Limited developer stipulates that the app's privacy practices may include data management as described below. Terms of Use: world's privacy policy; support New support@outfit7.com: Holiday Surprise! This is a really fun game I've been playing for years. However, I don't like that there are ads everywhere. I have a problem with my talking angela app and Tom talking my second. There was an ad after I lost in the game, even though I didn't click to see the ad doubled in the number of coins. There were ads when I went to other stations, they were. Random up I understand you have to make money, but you've included the in-game wheel and your ads to unlock things over time. I think random ads should be removed and you should give them ads if they agree to view them. Don't just throw random ads in people's faces. For me, it doesn't make the game interesting. I've been playing this game for five years and then that progress has made me addicted to the game until I got to know. Roblox and Minecraft, but there are too many problems with ad games that emerge disturbing and lame, not to mention inappropriate ads appearing (discounts, underwear and toys for adults and pg13 games) this is a children's game, not a crying adult game, and it slows down a lot. My progress that I've worked for years is gone, it doesn't mean anything anymore. bc of ads I would be glad if you guys made them appear less or just completely remove ads, especially long minutes and my phone warming up like crazy also makes things too expensive, especially diamonds too hard to get. I don't remember who unlocked the diamond skin or the albino skin or diamond skin at any cost and you. Can't force people to watch ads (losing a mini-game that gets a special coin, opens a special airfare). I'm bored with it, I'm quite playing roblox where ads never pop up on your face, or there are disturbing and offensive ads, just ads made by roblox devs want ya to play their games with child-friendly content, so in conclusion: edit the game and remove all your ads or your game is going downhill, the reason I name is this review, why this game is because it teaches kids and people to beat the cats I watched the beachside videos of Lauren. And she said the same thing, deleted this app and never downloaded it, I'm at a high level, I know I'm still playing it, I think it's very fun because you like taking care of the cat, but the part sounds purring and it repeats all the horrible rumors about talking tom game, I think this game doesn't mean it's pretty fun, but really why this game, so delete this game, if you have it and don't download it, I know I play it, creepy things happen to me when I play it, so I play it like a punch. He did what you shouldn't do with the cat and then I started talking and then he said stop punching me and be quiet and I didn't say it was the scariest thing I've ever heard in my life, so after a long time I didn't delete the app and I still have it, I probably never delete it, but never play, don't download this game, it's not really for kids, even if it's a cute cat, but actually someone watched all your movements cover your camera while you're playing, but the best is you just don't download this game at all.
