Controllo con un tastoAccendi/Spegni. Accetta/Rifiuta chiamate. Riproduci/Metti in pausa. Accedi a Siri o a Google Assistant. Design an orecchio liberoInteragisci con il resto del mondo mentre ascolti la tua musica. Scatena il potenziale del tuo prodotto. App gratuita compatibile con la maggior parte dei sistemi Apple e Android™ Esegui con facilità il pairing del dispositivo mobile con i tuoi Bose Frames Conetti e passa da un dispositivo mobile all'altro in modo semplice Disattiva le iistrunni vocalpre aggiornati con il software più recente Personalizza le impostazioni dei Frames, ad esempio la lingua delle istruzioni vocali e la modalità di spoglimento automatico Bose Frames pack speakers into the stems of standard looking sunglasses and direct sound into the wearer's ears while remaining inaudible to others. Here's how to connect Bose glasses headphones to your phone via Bluetooth. These bose sunglasses instructions apply to Android and Apple mobile devices. Connect your images to your phone using the Bose Connect app: download the Bose Connect app from the Google Play Store or the iOS App Store. Turn on your images by pressing the single button on the right stem. Keep images close to your mobile device with the Bose Connect app open. Your images should appear on the screen shortly. If images appear, close the Bose Connect app to other nearby devices. Once displayed, you'll probably need to download the latest firmware. Having the latest firmware will ensure that you are able to take advantage of all the features of the application. Once you've set up your frames and connected to the Bose Connect app, you'll be able to control settings and take advantage of augmented reality features other third-party applications. Once the glasses are updated, you won't need the app to perform normal headphone functions. You can use the settings of the Bose music app or the device itself to audio playback. Most Bose frames have a single button on the right rod that can be used for various actions: Play/Pause: Single pressAnswer an incoming call: Single pressSkip track: Double pressBacktrack: Triple pressIncrease volume: Press and hold, then tilt your head rightDecrease volume: Press and hold, then tilt your head to the left To use the volume control function, make sure the firmware is up to date and activate it in the Bose Connect app. Bose Frames, despite their unique appearance, are really just headphones. They work with the same music streaming apps as any other listening device. They can even take calls. Now, instead of wearing both sunglasses and headphones, you just need one. Bose Frames are available in different styles and sizes. For example, there are the more classic Rondo looking sunglasses and the smaller Alto. Each style comes with a proprietary charging cable and a semi-hardshell case to protect

the glasses. Bose Frames are evaluated for a battery life of 3.5 hours. 1 2 3 4 5 Table of Materials 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 26
