

GROUP INNOVATION CONSTRAINT SURVEY

The Group Constraint relates to the way your team gathers and processes data, how members express their ideas and whether or not your environment is conducive to innovation. Take this short quiz to see if this constraint is lurking in your organization:

Managers' ideas are considered "better" than those of the group

Members are openly critical and dismissive of new ideas

Our team space does not facilitate collaboration/information sharing

Members don't have, use or understand our innovation process

If you answered "yes" to any of these questions, you may benefit from attending Vanderbilt's Strategic Innovation Short Program to work on the Group Innovation Constraint in your organization. Visit creativepeoplemustbestopped.com to take the full survey.
