**Ted Gilbert** has been promoted to Assistant Dean for Finance and Administration. A graduate of Lipscomb University, Ted originally went to work in the Arabian horse industry, a career path he followed until 1987 when tax law changes had a major impact on investments in the business. This led him to Vanderbilt, where he worked for 18 years as Administrative Officer in the Department of Medicine, Division of Nephrology and 2 years as the Department Administrator for the Vanderbilt Ingram Cancer Center. In 2007, he left Vanderbilt to become Associate Vice President of Research Finance at MD Anderson Cancer Center in Houston, TX, where he administered the $700 million annual research budget. Fortunately for us, he returned to Vanderbilt in 2016, where he became Department Administrator in the BRET Office before joining the Dean’s Office. Ted is “very happy to be back in Nashville and back at Vanderbilt” and we are very happy to have him!
