Rakennus - Architectural PPT Mall, a premium template for Envato Elements The best part of premium templates is that all design elements are taken care of by experts. All you have to do is add your own content. Create an impressive and professional presentation with minimal effort. 2. Talk about Visual Stories A verbal presentation can get long and boring real fast. The boring presentation reflects poorly on you and your company. To avoid this, presenters try to turn their presentation into an enjoyable visual story. There are several ways to do this. This tutorial takes you through how-tos : Microsoft PowerPoint How to tell effective visual stories in your PowerPoint presentations by Andrew Childress 3. Use high-resolution images If you need to include your pictures to introduce architectural work, team members, or plan drawings, make sure the photos are high resolution. Pictures are a big part of any presentation. This will help draw attention and send a message. Not sure how to work with pictures in your presentation? See this tutorial: Microsoft PowerPoint How to work with Images Powerpoint (Complete PPT Picture Guide) by Andrew Childress 4. Cut distractions Building PowerPoint Presentation, a neat and well designed template envato elements The end goal of each presentation is to forward information to your audience and keep your attention through this process. Identify and avoid possible distractions. Disturbing elements can be something like this: full or busy slides with poorly designed or outdated slides with too much audio or video bad alignments with too much text or hard words with too many flashy animations or transitions 5. Keep up to date with the latest trends If you're not a graphic designer, chances are you're not familiar with the latest design trends in 2020. You may have a standard style that you stick to for each presentation. It may be possible to distinguish between a dated presentation or a modern presentation.
