

WAKE FOREST GRADUATES

Colin Powell spoke at the 2004 Wake Forest graduation ceremony

Seniors Luke Orman, Nathan Sisco and Alan Susi

Wake Forest Graduates

Seniors Shauna Danos, Kara Hill, Denise Hefferin, Adralyn Wendel, Becca Veenstra, Jamie Grayzer, and Nikeya Green

OLYMPIANS AND TEAM USA MEMBERS

ANDY BLOOM

Andy Bloom was already a talented and accomplished athlete when he arrived at Wake Forest University in 1991. A native of Schenectady, New York, Bloom was a stand-out discus and shot-put thrower in high school and was highly recruited by big name universities. He decided on Wake Forest because of its academic prestige.

As a freshman, he specialized in throwing events, breaking the school records in the shot put and discus in his first meet. When he arrived at Wake Forest, the school record in the shot put was 51'11". thanks to Bloom, it now stands at 65'0 1/2" .

Likewise, in the discus throw, the previous school record was 167-8. By the time he graduated, the new record was recorded as 212'9". Not only was this mark just over 35 inches better than the old Deacon record, it also set a new Penn Relays record that year.

In his time at Wake Forest, Andy Bloom was ranked No.1 at the Collegiate level and fourth in the United States among discus throwers. In track and field competition both indoors and outdoors, he won a total of ten ACC titles, including outdoor shot put and discus titles in 1995 and 1996. He was a two-time All-American and received the honor of ACC Most Outstanding Performer (Outdoors) in 1995.

Bloom placed ninth in the shot put and second in the discus at the 1995 NCAA Championships.

After graduating from Wake Forest with academic honors and receiving Academic All-District Honors in 1996, Bloom went on to qualify for the U.S. Olympics track and field team that competed in Sydney in 2000.

A herniated disc kept Bloom from the 2004 Olympic games in Athens and has potentially ended his athletic career all together. He continues to undergo therapy to regain full strength and mobility in his left leg.

He currently resides in Vacaville, Calif. with his wife, Terri, and their two daughters.

NOLAN SWANSON

Former Wake Forest track and field and cross country standout Nolan Swanson qualified last February for the 2004 IAAF World Cross Country Championships which took place in Brussels, Belgium, March 20-21.

Swanson, a two-time All-American at Wake Forest, was competing for Team Asics when he placed sixth in the men's open division 12,000m race at the USA Cross Country Championships at the Fall Creek and 16th Street Park in Indianapolis. The top six finishers in each division qualified to represent the United States in Belgium.

Swanson was one of six male athletes to represent the United States in the men's long race (12k) in Belgium. He placed 93rd out of the 142 participants.

Swanson was a three-time All-ACC cross country selection during his time at Wake Forest (1995-97). In 1996, Swanson became the first male in Deacon history to win the ACC individual championship. He received All-America recognition in cross country in 1997, finishing 32nd nationally and the only individual male qualifying Deacon to compete at the NCAA Championships. He was named the team's most valuable player in 1997.

Swanson was in individual champion in the 5,000m in 1997 and the 3,000m during the 1999 indoor track seasons. His 8:03.50 time in the 3000m crushed the ACC record by seven seconds. He finished second in the 5,000m race in 1999 as well.

His efforts earned him All-ACC honors each of those years.

In outdoor track, Swanson captured the 5,000m title at the ACC Championships on two occasions, 1997 and 1999. In 1998 and 1999 he won the 3,000m steeplechase. He was named All-ACC in 1998 and 1999 for his outdoor success. He posted a national best in 1999 in the 10,000m, running a 28:31.51.

Also in 1999, Swanson was named Most Outstanding Performer at the ACC Outdoor Championship Meet and earned All-America honors in the outdoor 10,000m. He was the team's most outstanding performer in 1999.

At the U.S. Track & Field Championships, Swanson placed sixth in the 10,000m.

In 1998, Swanson received the most prestigious award given to male athletes at Wake Forest, the Arnold Palmer Award, given to the top male athlete of the year.

In 2002, Swanson was named to the ACC's 50th Anniversary Team, one of only three Deacons to make the team.

HUNTER KEMPER

Hunter Kemper began running at ten-years-old when he competed in his first triathlon. The native of Longwood, Florida followed his passion and pursued distance running.

In 1992, he competed in the world championships. Kemper was offered many scholarships from Division I universities, including SMU for an academic scholarship, but found himself walking on to the Wake Forest cross country and track teams.

In his time as a Deacon, Kemper was a member of a Deacon team that placed 20th at the NCAA Championships in 1996. He also ran two top twenty individual finishes, including an eleventh place finish at the Appalachian State five-way meet with an 8k time of 26:21 in 1995. Kemper's top career

finish came in 1996 when he achieved a second place finish at the Easter Classic with a time of 8:58.97 in the 3,000 meters.

At Wake Forest, he was a five-time national age-group champion in the triathlon. He graduated from Wake Forest as a member of the ACC Academic Honor Roll and Dean's list.

He soon launched a professional career in triathlon competition. He competed in the 2000 Sydney Olympic games, placing 17th.

He earned his first National Championship in the summer of 2003, just after he married his wife, Val, a world class athlete herself.

In the summer of 2004, Kemper was the fifth-ranked triathlete in the world. He competed in the Athens Olympics, earning a ninth place finish.

Wake Forest University is one of the nation's premier private liberal arts universities, but the Wake Forest experience distinguishes itself from others in many ways. Wake Forest offers students the opportunity to discover not only who they are, but also who they can become. Through lessons learned in classrooms and labs, but also from the world around them, Wake Forest students are challenged intellectually and spiritually to become better students, and to become better persons.

Wake Forest is best described as a small school with the academic resources of a large school. It is recognized for outstanding teacher-scholars for whom teaching and research are priorities; libraries with comprehensive collections of print and electronic material; technology that includes a laptop computer for every student; and an intimate educational environment of small classes

and teacher-student interaction.

A leader among American educational institutions, Wake Forest has annually received recognition from U.S. News & World Report as one of the top schools in the nation. Barron's Guide to the Most Competitive Schools has also ranked Wake Forest among the nation's best public and private universities in the South.

Wake Forest has an undergraduate enrollment of approximately 4,000. It is one of just a few remaining private schools to offer a need-blind admissions program, in which qualified students are accepted without regard to their financial need. A caring community, big-time athletic programs, and supportive alumni networks contribute to Wake Forest's reputation as one of the finest schools in the country.

Steeped in rich history and tradition, Wake Forest was founded in

1834 in the town of Wake Forest, North Carolina, and relocated seventy-five miles west to Winston-Salem, North Carolina, in 1956. The picturesque Reynolda Campus, or main campus, is home to the Undergraduate College, the Calloway School of Business and Accountancy, the Graduate School of Arts and Sciences, the School of Law, the Babcock Graduate School of Management and the Divinity School. The Bowman Gray Campus is home to the Wake Forest University School of Medicine.

While much of their learning takes place on campus, many students make the world their classroom; about 50 percent of students have studied abroad by the time they graduate. Many study at the University's international residential centers: Flow House in Vienna, Casa Artom in Venice, and Worrell House in London. Others participate in pro-

grams in Africa, Mexico, Cuba, Japan, Russia, Spain and France.

In April 2004, President Thomas K. Hearn Jr., announced that he would retire in June 2005. In May 2004, alumna and Professor of Psychology Deborah Best was named the new Dean of Wake Forest College, succeeding Reynolds Professor of History Paul Escott, who stepped down after nine years as dean.

Also in the spring, Wake Forest was selected as one of eight Kauffman Campuses by the Ewing Marion Kauffman Foundation and will receive a \$2.16 million grant to further entrepreneurship on campus. The grant, which will be matched by University fundraising, will allow Wake Forest to become a model for incorporating entrepreneurship into a liberal arts campus. The five-year plan for the grant includes establishing an office of

entrepreneurship and liberal arts, adding new entrepreneurship courses and faculty, creating a university Center for Entrepreneurship, and developing a fifth-year entrepreneurship institute for recent university graduates pursuing new ventures.

In April the University dedicated the F.M. Kirby Wing of the Calloway Center for Business, Mathematics and Computer Science. The three-story project is named after the F.M. Kirby Foundation, which donated \$5 million for the addition. It includes classroom and office space, and breakout space for group meetings, as well as an entrepreneurial incubator – a special center designed for entrepreneurial business study.

Construction continues on an educational wing for Reynolda House, Museum of American Art, which became formally affiliated with Wake Forest in 2002. Reynolda

House was originally built as the early 20th century home of R. J. Reynolds, founder of R. J. Reynolds Tobacco Co., and his wife, Katharine Smith Reynolds. It is now home to a collection of American art dating from the mid-18th century.

Throughout its 170-year history, Wake Forest has honored its promise of giving the opportunity for a private education to those qualified individuals who might not have the financial resources. The Campaign for Wake Forest University: Honoring the Promise began in April 2001 with a goal of \$450 million; the goal was increased in the spring of 2002 to \$600 million, with \$400 million projected for the Reynolda campus and \$200 million for the Bowman Gray campus. The campaign, which concludes in 2006, seeks to build an endowment, relative to the scope of the University and its offerings, which will assure Wake Forest's com-

petitiveness to attract eager and talented students and to hire and retain the excellent faculty who teach them. Thanks to the generosity and leadership of Wake Foresters across the country, nearly 250 scholarships, programs, and professorships have been created or augmented since the campaign's inception.

Wake Forest offers plentiful opportunities for students and faculty to participate in social and service activities. More than 1,100 students regularly volunteer with the Volunteer Service Corps (VSC). One popular program is Project Pumpkin, which brings local children to campus to trick-or-treat in residence halls along University Plaza. Other projects include a spring carnival in conjunction with Special Olympics, construction of homes for Habitat for Humanity, and alternative break trips such as caring for the poor and eld-

erly through the City of Joy program in India, which observes its tenth anniversary this year.

From academic challenge to social development and spiritual growth, Wake Forest University offers an unparalleled college experience. Students find outstanding educational programs, the finest teacher-scholars, sophisticated computing and networking technology, intimate class settings, a strong sense of community and a competitive athletic program. They leave Wake Forest with an ethically informed education that has prepared them not only for a career, but also for a life in service to humanity.

Dr. Thomas K. Hearn Jr.
University President

Incoming students at Wake Forest University quickly learn that their university motto, Pro Humanitate, for the good of humanity, is more than an ideal; it is a guiding principle for daily campus activity and a closely held belief of the University's president, Thomas K. Hearn, Jr.

"The Wake Forest motto is no longer a human ideal," says Hearn, who became the institution's 12th president in 1983 and is now in his final year at the helm, with plans to retire in June 2005. "It is a mandate—a practical imperative—for living in a world now comprised of a single human community on an ever-smaller planet."

"In the Wake Forest education, reason must be enriched and guided by imagination, faith and moral compassion if you are to live Pro Humanitate," he says. "With Pro Humanitate as our purpose, we remain committed for the future, as we have been in the past, to an ethically informed conception of education and the educated person."

Hearn has served one of the longest tenures in major American universities. Half of all Wake Forest alumni have graduated since he became president.

During his presidency, Wake Forest has evolved as a national university and is annually recognized among the nation's top universities.

Wake Forest has been chosen to host two Presidential Debates during the past 12 years, including the 2000 debate between then-Vice President Al Gore and Texas Governor George W. Bush in Wait Chapel. Other highlights of his tenure include the opening of the Divinity School, the University's first new school since 1969; and the dedication of Flow House, the University's third overseas residential study center, located in Vienna, Austria. Both events took place in 1999.

Hearn's belief in the vitality of the Wake Forest motto goes beyond his role as University president; the phrase also guides his personal life. His community involvement is both varied and widespread. He chairs the board of governors for the Center for Creative Leadership, a nonprofit educational institution that is internationally

recognized for expanding the leadership capabilities of individuals and organizations.

Hearn is chairman of Idealliance, a community effort to bring technology-based companies to Winston-Salem and the Triad, and has been instrumental in the development of the downtown Piedmont Triad Research Park, which attracts businesses that complement the significant research on Wake Forest's Reynolda and Bowman Gray campuses. Hearn has served as chairman of the North Carolina Transit 2001 Commission, the Piedmont Triad Development Corporation, and the board of directors of First Wachovia Corporation.

The senior member of the Atlantic Coast Conference university presidents and a member of the original Knight Foundation Commission on Intercollegiate Athletics, Hearn is recognized nationwide as an advocate for collegiate athletic reform.

A native of Alabama, Hearn came to Wake Forest in 1983 from the University of Alabama at Birmingham where he was senior vice president. He is a graduate of Birmingham-Southern College and Southern Baptist Theological Seminary. He earned his doctorate in philosophy from Vanderbilt University in 1965. He has also received honorary degrees from the University of Alabama and Tokai University in Japan, and was named an Honorary Citizen by the University of Vienna, Austria. He is married to Laura Walter Hearn.

Hearn reminds students that the challenge of living Pro Humanitate does not end when they leave the Wake Forest campus. "Wake Forest today charges you to live Pro Humanitate, in service of humanity," Hearn told recent graduates. "By this requirement, you are not being called to adopt some lesser affection, some feeling, toward humanity at large. Rather you are being given a summons to action, a call to arms, to do battle in your varied fields of conquest against those ancient enemies that prevent men and women, anywhere and everywhere, from achieving their rightful place in the commonwealth of love."

Dr. Hearn Notables

- Hearn is Wake Forest University's 12th President and has served in that capacity since 1983.
- Under Hearn's leadership, Wake Forest has developed into and been recognized as one of the nation's top universities.
- Hearn is a member of the original Knight Foundation Commission on Intercollegiate Athletics and a nationally recognized advocate for collegiate athletic reform.
- Hearn is the senior member of all of the Atlantic Coast Conference's presidents
- Twice during Hearn's tenure, Wake Forest has been selected to host Presidential Debates, in 1988 and 2000.
- Hearn is the chairman of Idealliance, a community effort to bring technology-based companies to Winston-Salem and the Piedmont Triad.
- Half of all Wake Forest alumni have graduated since Hearn became president.

Your financial gift to the Deacon Club does more than simply support Wake Forest Athletics; you are enabling a student-athlete to obtain an education from one of the best universities in the nation.

Many do not realize that when a student-athlete signs a scholarship with Wake Forest, our Athletic Department is committing to pay for that scholarship. Today's scholarship costs total more than \$8 million. Your contribution to the Deacon Club helps to cover the cost of these athletic scholarships and allows our athletic department to continue to strive to be one of the best overall programs in the country.

It is our goal...

to win an NCAA Championship in Men's Basketball, to consistently fill Groves Stadium and attend annual bowl games in football, to be competitive on a national level in all of our sports and to prepare our student-athletes to positively impact society. It is our vision that Wake Forest Athletics be recognized nationally because of its success. We will get there by continuing to employ coaches and administrative staff who embody the highest standards of professionalism, integrity, ethical behavior, and sportsmanship. We will get there by recruit-

ing student-athletes who are academically prepared for university work and have the will to win. We will use the funds we have in the most efficient manner possible to maintain and build state of the art facilities for studying, practicing, and competing. We will get there by growing the number of Deacon Club supporters to our annual, endowment, and capital funds, along with the number of fans we have attend our competitions. We will get there with your support. And we will make you proud.

To learn more about the Deacon Club and the benefits associated with a Deacon Club membership, please contact the **Deacon Club office by telephone at 336-758-5626, by e-mail at deacclub@wfu.edu or on the web at www.DeaconClub.com.**

Student (\$25)

WF

The "Friends Of" Program at Wake Forest

We are pleased to recognize the contributions to the "Friends Of" Program at Wake Forest during the 2003-04 fiscal year. Donors to the "Friends Of" Program include Deacon Club members, former players, parents of current and former players, and other contributors, who choose to support a particular Wake Forest athletic team in a special and meaningful way. Contributions go directly to the donor's selected team to assist in meeting higher scholarship costs, capital projects, and to help increase the athletic endowment for that sport.

The Athletic Development Staff appreciates the Friends who contributed to the athletic teams listed here during the first year of the program: Football, Women's Soccer, Men's Soccer, Field Hockey, Men's Tennis, Women's Tennis, Women's Basketball, Volleyball, Men's Golf, Women's Golf, and Baseball. During the fall of 2004, the other sports at Wake Forest will add similar programs. If you are interested in helping any Wake Forest team and becoming a Friend of a specific athletic program, please contact a member of the Athletic Development Office at (336) 758-3875.

List accurate as of June 30, 2004

David Bass

Assistant Strength and Conditioning Coordinator

David Bass begins his first year at Wake Forest as assistant strength and conditioning coordinator. Bass works directly with the Deacon women's basketball, baseball, men's and women's tennis, women's golf and the men's and women's cross country teams. He also assists strength and conditioning coordinator Ethan Reeve with football.

Bass joined the Demon Deacons from James Madison University where he was an assistant strength and conditioning coach for 2 years. While at JMU, Bass earned his master's degree in exercise physiology.

He received an undergraduate degree in physical and health education from Concord University in Athens, W. Va. in 2001. While at Concord, Bass was a three year starter on the Mountain Lion offensive line, earning all-conference honors his junior and senior seasons.

Bass is certified through USAW and the National Strength and Conditioning Association.

Anne Bradley

Assistant Athletic Trainer

Anne Bradley begins her first year with Wake Forest. She will oversee the cross country and track and field programs.

Originally from Taylors Falls, Mn. Bradley earned her Master's of Science degree from the University of Oregon in June 2004. While she was there she worked as a graduate assistant athletic trainer for two years with the athletic department. During her first year she worked with the women's cross country and track and field programs, and the second year with the football team.

She received her undergraduate degree from Hope College in Holland, MI in 2002.

She is single and lives in Winston-Salem.

Dr. Richard Carmichael

Faculty Athletic Representative

Dr. Richard Carmichael was appointed Wake Forest's Faculty Athletic representative in July of 2003. He succeeds Dr. Ed Wilson, who retired following over 50 years of service to the school, including 15 seasons as the Faculty Athletic Representative.

Dr. Carmichael brings long-time Wake Forest ties to the post as well. A 1964 graduate of the University with a degree in mathematics, he is currently the Chair of the Department of Mathematics, a post he has held since 1988.

Born March 13, 1942 in High Point, N.C., Carmichael graduated from High Point High in 1960 and attended Wake Forest on a basketball scholarship. Playing under legendary coach Bones McKinney, Carmichael helped the Demon Deacons reach the Final Four in 1962, the only Wake Forest basketball team to ever do so.

Brett Hickman

Assistant Director of Operations

Brett Hickman enters his third year with the Wake Forest Athletic Operations Department. A native of Rock Hill, South Carolina, Hickman was a 2002 graduate of Wake Forest, where he earned a B.A. in politics. Before graduating, Hickman spent three-and-a-half years working as a student assistant in the operations department. He was a walk-on to the Wake Forest basketball team his senior year.

Elizabeth Miller

Student Athlete Services

Elizabeth Miller works as the academic counselor for the field hockey, volleyball, men's soccer, women's tennis, men's and women's cross country, and men's and women's track teams. She works on a daily basis with the members of those teams, closely moni-

toring each student-athletes academic progress.

A Christiansburg, Virginia native, Miller earned both her undergraduate and graduate degrees from Wake Forest. After receiving a bachelor's of arts degree in History in 1999, Miller taught in the Wake County Public School system for a year before returning to Winston-Salem for a Masters in Education, which she received in 2001.

Roxann Moody

Head Equipment Manager

Roxann Moody enters her 23rd year with Wake Forest athletics, and her third season as the head equipment manager. A Demon Deacon basketball player and student equipment manager in her college days, Moody has been with the athletics program ever since. She played for and later coached with women's basketball coach Wanda Briley while continuing her support of the program in the areas of management and equipment.

After receiving her undergraduate degree from Wake Forest, Moody also earned a master's degree in counseling from North Carolina A&T.

Courtney Tysinger

Media Relations/Track & Field Contact

After spending two years as an undergraduate assistant in the Wake Forest media relations office, Courtney Tysinger returns as the department's intern in 2004-05.

Tysinger handles the publicity and media relations efforts for the Wake Forest field hockey, cross country, track and field and women's golf programs and assists with football, men's basketball and women's basketball.

Last year, Tysinger was the media contact for the 2003 NCAA Champion Wake Forest field hockey team.

Tysinger, native of Richmond, Va., earned a bachelor's of science degree in economics and history from Wake Forest in the spring of 2004.

Barbara Walker

Senior Associate Athletic Director

Barbara Walker joined the Wake Forest staff in 1999 and now serves as the senior associate director with the added responsibilities of senior woman administrator.

Walker oversees 13 sports, plus compliance, operations, sports medicine, student-athlete services and strength and conditioning. Walker served three years on the NCAA Women's Soccer Committee, two of those years as Chair. She also currently serves on the NACDA Executive Board.

Prior to Wake Forest, Walker spent two years at Texas as Associate AD, eight years at Oregon as Senior Associate AD, and eight years at UAB. She received her undergraduate degree and master's from Central Missouri State.

She has a daughter, Ruan, who turned four in April.

Ron Wellman

Director of Athletics

Ron Wellman, who has elevated Wake Forest University athletics to its highest level ever and committed to preparing the program for greater success in the future, enters his 13th year as director of athletics.

Wellman, who was officially named athletic director in October of 1992, is only the fifth man to assume the top position in the athletic department at Wake Forest.

Born in Celina, Ohio, he earned his undergraduate and master's degrees from Bowling Green State University, where he was a pitcher on the varsity baseball team.

Wellman and his wife Linda have three daughters – Angie, who works for ESPN Regional in Charlotte, Nicole, a student in the Wake Forest University Medical School; and Melissa, a graduate student in the Wake Forest University counselor education program. Nicole recently married Kevin Rice.
