

Disney for Free: Blueprint for the Happiest Place on Earth

This is the credit card promotion companion printable for [this post](#), which explains step by step how to get a family of four to Disney for as cheaply as possible through travel hacking & promotion hunting.

How to use: We've preloaded each category with the recommended card plus extra for you to put alternatives. Bonus miles is the promotional bonus you earn by hitting the spending amount by the spending deadline. The approval date is the date you were issued the card and that's when the promotional spending clock starts. All are left blank because promotions change so put in the number when you apply.
