

WATERLINE SQUARE

ONE WATERLINE SQUARE
ARCHITECT

Richard Meier & Partners Architects

Waterline Square is a dynamic collection of three distinct towers designed by the world's most accomplished architects, surrounding a lush new park on the Upper West Side of New York.

At the southernmost portion stands One Waterline Square by Pritzker Prize-winning architecture firm, Richard Meier & Partners Architects. The striking glass facade commands a full city block between Fifty-Ninth and Sixtieth streets at Riverside Boulevard, and invites dramatic sunsets over the Hudson River and views of the skyline beyond. With interiors and a luxurious suite of private amenities by Champalimaud, the fifty-six elegantly proportioned one- to five-bedroom residences marry the precision of the exterior with great warmth. The finishes celebrate the individual character of each home and showcase high ceilings, enormous windows, and a rich selection of handpicked materials.

The experience at One Waterline Square is remarkable in every way. In addition to the verdant central greenspace within steps of their front door, residents will have access to thousands of square feet of dramatically designed sports, fitness, leisure, and outdoor amenities and features – including an indoor tennis court, 25-meter lap pool and separate children's pool, full-court basketball, squash court, indoor soccer field, rock climbing wall, expansive fitness center with specialized studios, indoor/outdoor children's playgrounds, game rooms, musicians' studio, arts and crafts studio, private dining room with catering kitchen, multiple lounge and social spaces, fully furnished and landscaped sundeck with outdoor grilling, valet parking garage, porte-cochere entry, full-time lobby attendants, and anticipated 20-year 421a Tax Abatement.

Waterline Square elevates the modern residential experience, offering a life that transcends expectations. Rethink How You Live.
