Enrich your curriculum with local, relevant and engaging topics while still addressing national standards and district expectations.

Network with teachers from around the Basin in Québec, New York & Vermont.

Meet with Basin scientists, historians and stewards who work with local issues to preserve and protect this amazing place.

Have fun and get outdoors! WEC is like camp for teachers: You'll travel the Basin, visit farms, paddle waterways, look out over mountain tops, tour urban areas and much more!

Join the hundreds of educators who bring their discipline alive through watershed education!
