Bridging Disciplines:

Exploring the Stories of Our Place

Fort Ticonderoga, New York

Join the Champlain Basin Education Initiative (CBEI) partners as we explore place-based learning across disciplines, incorporating the Common Core standards as well as the newly issued Next Generation Science Standards. We will discuss the foundational principles of place-based practices, examine primary documents, and engage in historical and scientific investigations.

Full agenda available by May 1. Visit watershedmatters.lcbp.org or contact Colleen Hickey at chickey@lcbp.org for more information.

CBEI Partners include: Lake Champlain Committee, Lake Champlain Basin Program, Our Curriculum Matters, Shelburne Farms, UVM Watershed Alliance-Lake Champlain Sea Grant, Vermont Agency of Natural Resources – Project WET, and ECHO Lake Aquarium and Science Center at the Leahy Center.

Hosted jointly with the Fort Ticonderoga Education Program
