Champlain Elementary

Teacher: Sarah Legault

Grades: 5-8

Category: Celebrate Water

Make It Blue!

"We wanted to show that water is important and that its inhabitants are often overlooked. Water is very important to our daily lives and this serves as a reminder."

<https://bit.ly/3tjZL7H>

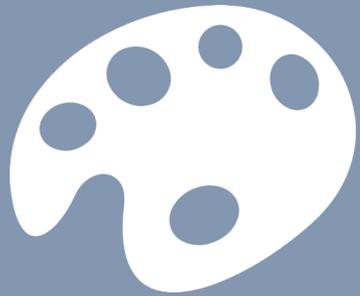

Keene Central School

Teacher: Jenn Jicha, Megan Wellford, Stacey Van Campen

Grades: 5-8

Category: Celebrate Water

Atlantic Salmon Fish Flag

"We created a series of 6 flags to represent the 6 stages of life of the Atlantic salmon life cycle: egg, alevin, fry, parr, smolt, adult."

View all the flags [here](https://bit.ly/3qdizUI)
<https://bit.ly/3qdizUI>

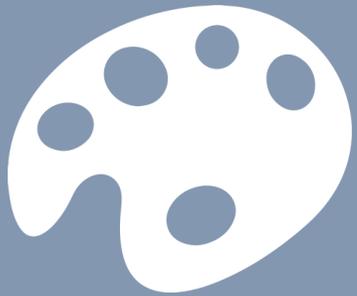

Keene Central School

Teacher: Jenn Jicha, Megan Wellford, Stacey Van Campen

Grades: 5-8

Category: Celebrate Water

Ted Harrison Landscape Paintings

"We love the mountains, rivers, rocks and lakes. We think that the water has beauty and grace and that it looks better clean than full of garbage."

Hunt Middle School

Teacher: Lee Slocum Orlando

Grades: 5-8

Category: Spread the Word

Prosthetic Fins STEM

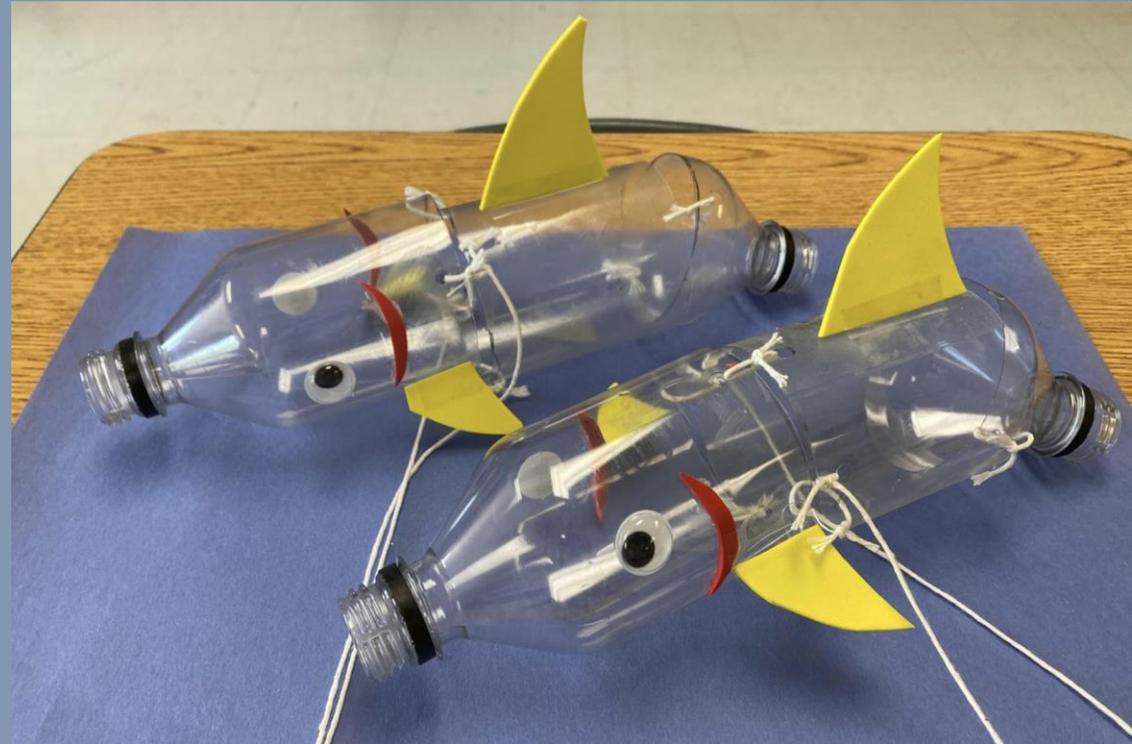

Project

Sixth graders on Team Calypso used the engineering design process to design, build and test prosthetic fins. They studied the movements of their classroom fry, learned about various fin shapes, and explored how biomedical engineers develop prosthetics for both people and animals.

Boquet Valley CSD

Teacher: Erica Loher

Grades: 5-8

Category: Act Locally, Think Globally

Upcycled Hydroponic Planters

"We made hydroponic planters to celebrate World Water Day. They help us grow our plants and reuse plastic bottles."

By the Water's Side

By Sadie E. Burgess

When I walk down
to the lake,
to the river,
to the little trickling stream,
I see,
water.
Water that
rushes in waves
over stones and
dirt.
Always moving.
But water is more
than just a
beautiful
thing.
More than just
what drips off icicles into puddles
Water is
important.
Water is
something to
protect.
When I am by the water's side
I know
that this water
means something
to everyone.
Something that must
be kept flowing.
For ourselves.
For the planet.
For everyone and everything in it.
Because without water,
we wouldn't be here.
And that is something
I remember
when I am by the water's side.

Boquet Valley CSD

Teacher: Erica Loher

Grades: 5-8

Water Full of Mermaids
By Sophie Brankman Gibbs

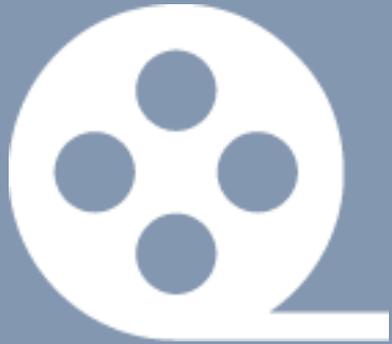

Water
It flows
It sings
It listens
Water
Is my friend
I wish
I could
Live in it
And be a mermaid
Water
It drowns
Sailers
And fill
Lungs with
Water
It kills
It is dangerous
I hate it
But I love
It
And want to
Be a
Mermaid
My heart is
Drawn
To
Water
It
Is
Merciless
It has no
Feelings
I hate water
Mermaids
I want to be
A mermaid and
Live in
Water

Shelburne Community School

Teacher: Vasanthi Meyette

Grades: 5-8

Water By: Dylan Norris

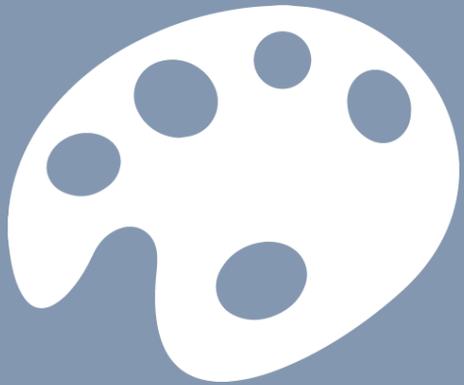

Water keeps you hydrated,
saves lives,
and puts out fires,
water is 70% of you and me,
water is everything we could ever hope to be.

Shelburne Community School

Teacher: Vasanthi Meyette

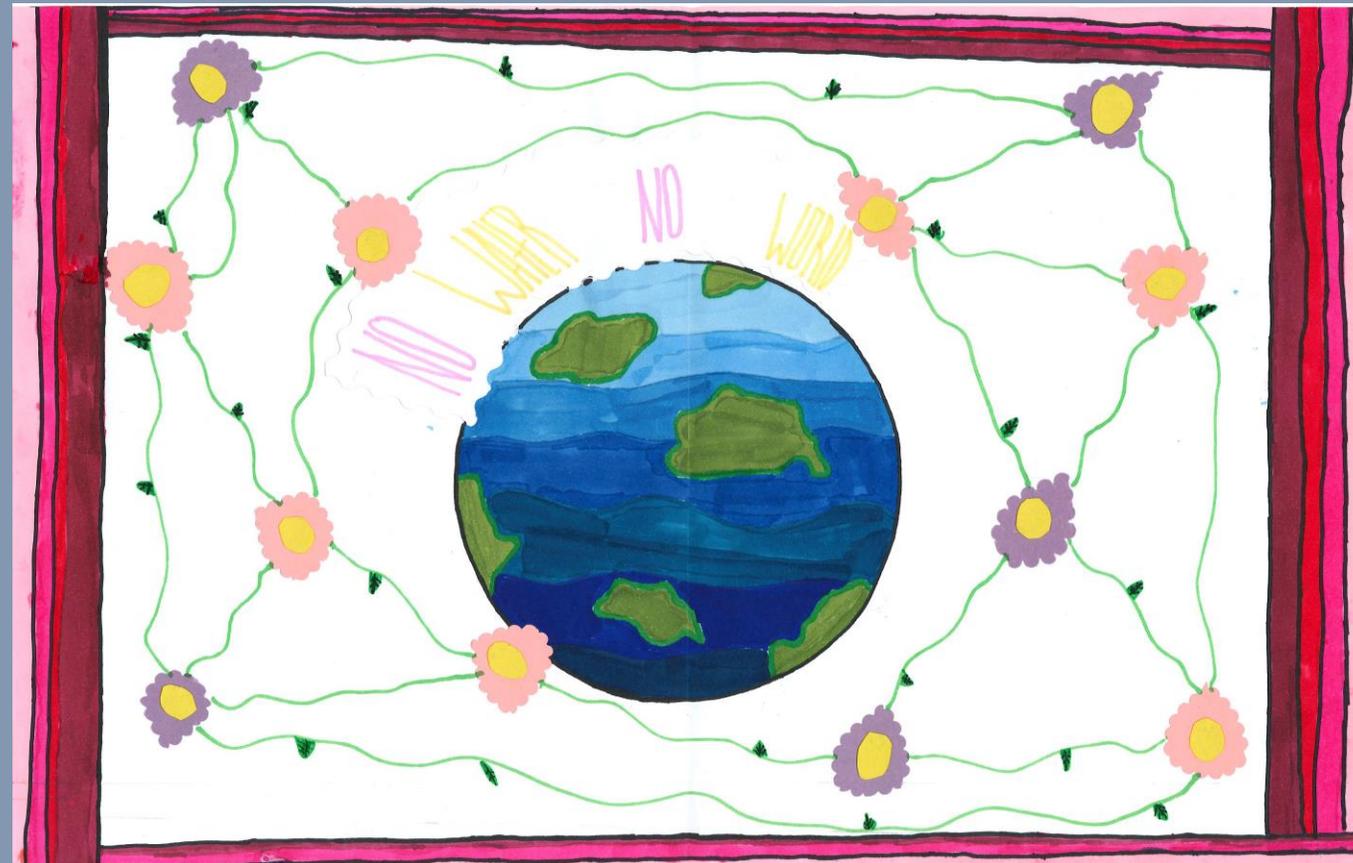

Grades: 5-8
