This video describes the process of installing the certainTeed Integrity roof system. Each of the steps and materials used are detailed to help prepare homeowners for their roof conversion, as well as to give confidence in the materials and their investments. Useful information about flashing and ventilation is also highlighted, along with a deeper look at the shingles itself. The Arcadia Shake is inspired by the iconic appearance of split wood shake, with each pebble formed from a high-quality blend of roofing asphalt, proven to surpass traditional shake roofs in almost every medium. Unlike natural wood, the Arcadia Shake has no maintenance and provides an excellent class of fire resistance and resistance to winds. Part of the cost of a wood cocktail, Arcadia Shake offers discerning artisan homeowners a look at the price, which makes it a smart choice to protect and decorate your home. BlackShadow GrayShenandoahSolaris CypresswoodSolaris Weatherwood Presidential Shake TL, a luxurious pebble overlooking cedar cocktails and a performance of one of the best compositional roofing solutions in the industry. Three layers of material for the thickest, harshest and heaviest pebblesSculpted tabs provide the look and beauty of the old world wood shake, But with the best performanceAcpenable at a fraction of the cost of natural wood shakesUnique and a rich selection of colors with options for every taste Aged BarkAutumn BlendCharcoal BlackCount GrayCountry GrayShadow GrayPlatinumPresidential TL Solaris has the rustic authenticity of a wood cocktail and the strength of triple laminated shingles, with the added performace of Soalris cool skin.
