Matrix report in dashboard salesforce

O'Reilly members have live online training experiences, including books, videos and digital content from more than 200 publishers. You can also group up to two levels for both rows and columns, as well as tabular and summary report formats. By default, record counting is added to the report matrix. When you add a summary field in a matrix report, the summary field is added to the summary report When you add a summary field to a matrix report, you can remove the default record count from the matrix if you do not want to. The format of this report is great when you're big, get salesforce lightning reporting and dashboards now, with O'Reilly's online learning, O'Reilly members have live online training experience, including books, videos and digital content from more than 200 publishers.
