CPE On-Demand—Fourth Quarter 2014

Webinars at Your Fingertips, 24 Hours a Day!

By Kelli Evers
Webinar Administrator

Webinars are gaining popularity with their ease of use, price, and ability to watch from anywhere there is an Internet connection. NACVA® and the CTI™ continue to offer high-quality webinars taught by today's leaders in the industry. This delivery method, in light of the busy lives so many in the financial industry lead, makes webinars the perfect option for obtaining the ever-important Continuing Professional Education (CPE) credit.

This has been an amazing webinar year! 2014 has seen the launch of the new NACVA® and the CTI™ Webinar Marketplace, a webpage that shows every webinar available for purchase for the year with just a glance.

But what if you missed one of the 290 webinars offered in 2014? What if you live in a different country and the time zone just doesn't work for you? How do you get your CPE hours or view webinars that interest you?

CPE On-Demand, that's how!

NACVA and the CTI are excited to announce the launch of the CPE On-Demand, a website that employs intuitive and advanced navigation to find archived webinars available for purchase. The site allows users to search by webinar broadcast date, presenter, featured topics, category, keyword, and even recently added webinars.

After purchasing an On-Demand webinar, users will have easy access to their purchases through a "My Account" page. From here, users can view the recording, access all of the course materials, and access the quiz feature to receive their CPE credit.

Now you can access webinars any time of day that is convenient to you, no matter where on the planet you are or what time of day it is. Now is the time to build your own On-Demand library, rack up the CPE, and make webinars a part of your everyday life!
