

The Healing Garden

A healing garden is not just an ordinary garden. It provides a peaceful place where patients, their families and employees can find beauty, comfort and solitude.

Redington-Fairview's garden is a lovely, intimate space that offers a walk of engraved pavers, a serene fountain, benches, lush landscaping and pergola for privacy.

The personalized, engraved pavers acknowledge and remember individuals and families. Some celebrate the birth of a child, others honor a relative, while still others symbolize grateful thanks from patients or families for care provided at Redington-Fairview General Hospital. Each serves as a lasting tribute.

Be a part of a beautiful & lasting tradition
