## **Book Week 2015: Digital Resources to Engage Students**

60 minutes

Presented by Dr Jennie Bales, Adjunct Lecturer, Charles Sturt University

### **Outline of content presented**

Book Week is a significant event on the annual calendar for classroom and English teachers and teacher librarians with its focus on quality literature. Supplementing and extending these reading experiences with resources available on the Internet and the use of web tools for students to respond creatively to the literature enriches the Book Week experience. This webinar provided an overview of links to supporting material on the short listed titles and their authors, and included strategies and tools to inspire students in responding to the books through the creative use of technology.

Outcomes for the attendee:

- Web links to author information, book reviews, teaching resources and other relevant sites on each of the shortlisted titles.
- Suggested websites to follow for additional Book Week resources, teaching and display ideas.
- Digital tools and ideas to stimulate students' response to the literature.
- Access to an electronic list of the websites and their URLs to facilitate easy access after the event.

This webinar addresses the following Australian Professional Standards for Teachers:

3.3 – Select and use relevant teaching strategies to develop knowledge, skills, problem solving and critical and creative thinking.

3.4 – Select and/or create and use a range of resources, including ICT, to engage students in their learning.
