

COMPANY PROFILE

A&J Environmental Pallets

aandjpallets.com

ABOUT

A&J Environmental Pallets is your source for packaging and shipping solutions. Shipping your products locally or around the world, we will meet your needs. Our facilities, knowledge and experience enable us to provide you with a complete line of wood packaging and shipping products. Wood and pallet recycling along with industrial wood products provide you with a full service pallet source. For cargo being shipped overseas A&J Environmental Pallets provides Heat Treating process for any wood pallet, crate or engineered lumber, meeting all government regulations for export shipping. This will assure that your shipment is ISPM-15 compliant and marked with the IPPC stamp requirement. At A&J Environmental Pallets, we strive to maintain a “green” agenda by sending as little wood waste as possible to landfills. Recycling initiatives include an ongoing effort to utilize, repair, reuse or recycle all used and recycled lumber including pallets, skids, crates and wood scrap. We also offer wood pallet and scrap removal programs as an added service for our customers. Mission Statement : To Provide quality products and services to our customers. To Treat our customers and coworkers in a kind and friendly manner. To be a positive influence in the community.
