

COMPANY PROFILE

Advanced Global Materials

advancedglobalmaterials-px.rtrk.com

A B O U T

Distributor of specialty metals, raw materials, valves, flanges and fittings. Available in bar, pipe, rod, tube, wire and sheet forms. Capabilities include grinding, turning, boring, flame and water jetcutting and milling. Suitable for various industries such as defense, aerospace, oil and gas, solar, wind turbine, pipeline, shipbuilding, medical instrument, satellite and rocket building. Custom sizes are also available. Meets MIL-S-6758, MIL-S-5000 and MIL-S-8844 Specs and AMS, ASTM A 331 and ASTM A 322 standards. Advanced Global Materials is an internationally recognized distributor of specialty metals.

Supplying major industrial sectors worldwide. Such as defense, aerospace, oil & gas, solar, wind turbine, pipeline, shipbuilding, medical instrument, satellite, rocket building. Just to name a few. Some of our extensive product line includes but not limited to the following. Alloy Steel 4340, 4130, 4140, 4330. Stainless Steel 304, 316, 321, 410, 422, 15-5PH, 13-8MO, 17-4PH. Nickel alloys 600, 601, 625, 718, 800H, 800HT. Carried in plate, sheet, flat bar and round bar. All material is certified to AMS, ASTM, MIL-S specifications. Custom sizes are our specialty. We have in house processing capabilities. Milling, turning, boring, saw cutting. Defense: Advanced Global carries a full line of materials including high strength stainless steel grades, alloy steels, nickel, aluminum, and many more used for defense applications. Materials are certified to AMS, MIL-S-, ASTM, Boeing, GE, Lockheed, Northrop specifications. Full mill test reports supplied with all materials. DFARS / Domestic. Aerospace: Alloys, aluminum, nickel, and titanium available upon request. Boeing, Airbus, GE, Lockheed, Northrop specifications met. Aerospace alloys are available for both military and commercial aircraft. Custom sizes, Consumable Electrode Remelted are our specialty. We have supplied materials for the following aircraft: Boeing 787 / F22 / F35 / FA18 and many more. DFARS / Domestic. Marine: Specializing in marine grade nickel alloys, 200, 625, 718 Monel 400, K500 and many more. High strength corrosion resistant alloys. For ship building. We also supply a full range of pipe, flanges and fittings made from hard to find alloys such as

70/30 - 90/10 copper nickel fittings. Electronic:Stainless steel, aluminum, nickels in ultra thin sizes. For the production of processors, conductors and many more electronic components. Power Generation Industry:Advanced Global specializes in a wide variety of metals to accommodate this industry. Supplying high strength alloys, corrosion resistant nickels, stainless steel grades, high pressure quality materialsavailable in plate, sheet, bar, pipe, tube
