

COMPANY PROFILE

Artus

artuscorp.com**A B O U T**

Dedicated to Quality, Committed to Service. Quality is what attracts customers. Service is what keeps them. Both have been Artus mantras from the company's beginning at the end of World War II to the present. Much of Artus business is custom manufacture, working to specs of thousandths of an inch. No room for error. Quality here is precision plus. Artus service is attentive, responsive, helpful. From returning phone calls to solving design problems. Our sales and technical people are on call at your request. Reach us by phone, fax, or e-mail. Want a quote? We do them without charge or obligation. We will need your specifications, so be prepared when you call. Artus Corp. has been manufacturing and supplying shim, shim stock, gasket, and slitting products since the end of World War II. A popular choice among customers, our color coded aluminum and plastic shim products identify thickness by color, making it easy to select the thickness you require for a particular application. Offering the highest quality materials, your products can be fabricated in brass, stainless steel, low carbon steel, color coded aluminum, and color coded plastic. Ask us about additional materials for gaskets! Whether you're looking for a standard solution or are working with a custom design, our experienced representatives partner with you to ensure you get exactly what you need for your application - from material selection to solving design problems. Working to specs of thousands of an inch, our capabilities guarantee accuracy and repeatability for your precision parts. For your convenience, we store your custom tool in our library to make reordering fast and easy. Trusted by manufacturers and machinery and processing plants across all industries, Artus Corp. offers the highest quality materials, products and personalized service to customers around the world.
