ABOUT

B.O.S.S. Compost Inc. is a company that has been improving soil since 1978. They produce organic compost and topsoil planter mixes from their manufacturing facilities in Colorado. Their compost is made from a combination of animal bedding, horse, steer, and dairy cow manure, along with alfalfa, straw, corn husks, decayed animal feed, and wood shavings. B.O.S.S. Compost is dedicated to providing high-quality soil products to enhance gardening and landscaping projects.
