

COMPANY PROFILE

Bland Recycling,

blandrecycling.com

A B O U T

Bland Recycling offers asphalt and concrete disposals, processing and recycled aggregate sales since 1997. Recycled aggregates are our specialty. Bland Recycling provides for disposal and recycling of concrete, asphalt and reinforcing steel/rebar and offers high-quality recycled aggregates for resale. Materials recycled at our two locations include sidewalk, curb and gutter, driveways, streets, footings and foundations, precast concrete walls, floors, asphalt and some soils. Bland Recycling, LLC opened for business in 1997 offering an alternative to contractors looking to dispose of reusable concrete and asphalt. Over time, recycling operations expanded to Locations 1 and 2. Bland Recycling provides for disposal and recycling of concrete, asphalt and reinforcing steel/rebar and offers high-quality recycled aggregates for resale. Bland Recycling also offers custom crushing and trucking services. This independent, family-owned operation is staffed by professionals trained in recognizing hazardous materials. President, Boe Bland, is active in aggregate recycling issues in the Rocky Mountain West and has served on the Board of Directors of the Construction Materials Recycling Association (CMRA). Our certified truck scales at both Bland Recycling locations help you earn LEED credits for recycled aggregate purchases AND disposals. Loads may contain up to 50% recyclable dirt, loads with more than 50% dirt may be subject to different pricing. Mixed concrete & asphalt loads same price as concrete with rebar or asphalt pricing. Concrete dump loads with cable or wire subject to higher pricing. We take Visa/MasterCard, checks, cash. All products purchased are weighed on certified truck scales. Oversize concrete and loads needing special handling will be priced by loader operator. We do not accept hazardous, industrial waste, transite pipe/shingles, loads with petroleum smell, barrels, mud, wood, plastic, weeds etc.. Prices subject to change without notice. Minimum price on all transactions \$20. Call Boe 801-243-1183 or boe@blandrecycling.com for discount pricing on aggregates. The Leadership in Energy and Environmental Design (LEED) Green Building Rating

System™ is a third-party certification program and the nationally accepted benchmark for the design, construction and operation of high performance green buildings. Developed by the U.S. Green Building Council (USGBC), Leadership in Energy and Environmental Design (LEED) provides building owners and operators a concise framework for identifying and implementing practical and measurable green building design, construction, operations and maintenance solutions.
