

COMPANY PROFILE

CHAIN STORE CONSTRUCTION

chainstoreconst.comABOUT

Demolition | We stand firmly on our company's foundation of Integrity, Experience, Commitment, Professionalism and Technological Advances to excel in the construction market today. Successful contracting has more challenges today than ever; with ever increasing government and environmental requirements, immigration issues, safety issues and rising insurance rates, all factors contributing to increasing our cost of doing business and affecting our bottom lines. All these issues make it tempting to abandon our values in order to be successful. I believe that if we fail here we lose entirely. Chain Store Construction Inc. makes every effort to surround ourselves with professionals that believe and hold steadfast to a strong base of principles and ethics. Our goal is to serve our clients with the utmost in professional standards while producing the product they desire. We also care about the environment and the impact that we leave on this world for the generations to come. It is one of our goals to work with our clients to help reduce jobsite waste by trying to recycle as many products as possible and by doing so helping to reduce the impact on our landfills. We also work stringently on controlling hazardous chemicals disposal from the jobsite by using proper disposal procedures to avoid impact on the local environment. Providing a superior project while adhering to our company's strong foundation and beliefs is an easy statement to make, but for us, it is our commitment to our clients. We welcome the opportunity to exceed your expectations.
