

COMPANY PROFILE

Coffmans Metals

coffmansmetals.net

ABOUT

Coffman's Metals is a family business that has been serving the recycling needs of West Virginia for over 80 years. We are one of the state's premier processors of ferrous and non-ferrous metals, catering to both individual and industrial recyclers. In addition to metals, we also purchase medicinal roots and herbs. Our company is large enough to handle all your recycling needs, but small enough to provide personalized care to our customers.
