ABOUT

Cross Electronic Recycling is Omaha's only non profit electronic recycling, Data Destruction and e waste company serving individual and business needs. Electronics not only contain toxic substances that are harmful to our health and the environment, they also contain sensitive company data that requires a trusted disposal partner. Secure destruction of electronics prevents toxic substances from being released into the environment and protects sensitive company or personal data. We offer high quality refurbished products at affordable prices for non profits, schools, and low income families. Check out our current specials in the store! All donations are tax deductible.
