

COMPANY PROFILE

Crown & Kornell Corp

crown-kornell.comABOUT

Since 1994 we have been an innovator in resource recovery. Our commitment to reclamation has kept millions and millions of pounds of material out of land fills and delivered them back into usable products. We process all forms of materials containing precious metals. We are committed to making your recycling program easy to set up and maintain. We evaluate your plastic volumes, types, and in house procedures to determine the most convenient methods for saving, packaging, and transporting your scrap materials. We then provide you with containers, if necessary, We then utilize our international freight network to transport your materials to our facility. We sort, verify, weigh your scrap, and issue you a thorough statement of materials received, their weights, and value. There is never a charge to you for containers, freight, or setting up the program. New Customers and Existing Customers can use the contact form on this page to set up service, order a pick-up, request additional containers, or make other inquires. Our novel 'any size generator' collection systems brings the benefits of recycling to all size companies. Each company is designed a collection system appropriate to their individual needs and preferences.
