ABOUT

D.F. Goldsmith Chemical & Metal Corporation (DFG) specializes in chemical manufacturing, mercury refining services, and precious metals fabrication. DFG opened in Chicago in 1960 with facilities to produce gold salts and to refine and bottle mercury. The company is now located in its own 5000 square foot headquarters building in suburban Evanston, Illinois. For over 50 years, DF Goldsmith has built a reputation as a valued supplier of high purity chemical and precious metal based products.
