

COMPANY PROFILE

Ecobat

ecobat.com

ABOUT

Ecobat is a leading company in the collection, recycling, production, and distribution of essential resources for modern life. They specialize in lead and polypropylene products used in batteries for vehicles, renewable energy, hospitals, and data centers.

Additionally, Ecobat offers lithium collection and recycling services to support the growing demand for electric vehicles and energy storage technologies. The company is committed to sustainability and environmental protection, with a global presence and a focus on technology, quality, and supply chain excellence.
