

COMPANY PROFILE

Ecosmith Recyclers

ecosmithrecyclers.com

A B O U T

Since 1991, Ecosmith Recyclers has kept over 45 million pounds of shoes, clothing and household textiles out of landfills, and in circulation, while giving back over three-quarters of a million dollars to local non-profit groups. We feel it is important to “keep it local” by assisting other local businesses in connecting with their local community and helping local non-profits in raising funds, employing local people, and paying local taxes all while supplying much needed clothing and shoes to the less advantaged worldwide, and of course “keeping it green”. With the help of our partners, sponsors and supporters....and a ton of hard work, Ecosmith has kept over 47 million pounds of shoes, clothing, and other household textiles out of the waste stream by putting those items back into circulation. We support local non-profits by paying them for materials collected in our bins. Ecosmith is now offering drop-off service at our warehouse on 11 Byam Rd. in New Boston, NH. We will unload your recycled textiles from your vehicle for you and you can choose from our extensive list of local non-profits to benefit from your donation! Ecosmith Recyclers Scholarships school2Ecosmith Recyclers gives out two \$1000 scholarships annually to an environmental major graduating from Goffstown High School. We feel it is important to help these students achieve their goals and after sending three of our own children through college we know every bit helps. It's easy to participate because it's free and Ecosmith takes care of every step. It shows my business supports reducing landfill waste and helping the environment. It will increase traffic to my business. I want my customers to know I support helping the less fortunate. It's another way for me to help raise money for a local charitable organization or school. I know Ecosmith sends the materials where they are needed. Ecosmith is a local business, and I support local businesses. It is a convenience I can provide to my customers.
