

## COMPANY PROFILE

# EMR Metal Recycling

[emrgroup.com](http://emrgroup.com)

## ABOUT

EMR Global is a leading metal recycling company with a strong global presence. With over 130 operational sites worldwide, we recycle around 10 million tonnes of waste annually, transforming them into over 200 grades of sustainable raw materials. Our services include industrial clearance, waste management, plastics recycling, and environmental consultancy, all aimed at creating a sustainable future and supporting a circular economy. Our vision is to be the global leader in sustainable materials and achieve carbon neutrality by 2040.
